RULE II – PROCUREMENT PLANNING

Section 7. Procurement Planning and Budgeting Linkage

- 7.1. All procurement shall be within the approved budget of the Procuring Entity and should be meticulously and judiciously planned by the Procuring Entity. Consistent with government fiscal discipline measures, only those considered crucial to the efficient discharge of governmental functions shall be included in the Annual Procurement Plan (APP). For purposes of this IRR, a procurement project shall be considered crucial to the efficient discharge of governmental functions if it is required for the day-to-day operations or is in pursuit of the principal mandate of the Procuring Entity concerned. The APP shall include provisions for foreseeable emergencies based on historical records. In the case of Infrastructure Projects, the APP shall consider the appropriate timing/phasing of related project activities, such as, engineering design and acquisition of right-of-way site or location, to reduce/lower project costs.^(a)
- 7.2. No procurement shall be undertaken unless it is in accordance with the approved APP, including approved changes thereto. The APP must be consistent with the duly approved yearly budget of the Procuring Entity and shall bear the approval of the HoPE or second-ranking official designated by the HoPE to act on his behalf.^(a)
- 7.3. The APP shall be formulated and revised only in accordance with the following guidelines:
- 7.3.1. Upon issuance of the budget call in the case of NGAs, SUCs, Constitutional Commissions or Offices, or similar document for GOCCs, GFIs and LGUs, the Procuring Entity shall prepare its indicative APP for the succeeding calendar year to support its proposed budget taking into consideration the budget framework for that year in order to reflect its priorities and objectives.^(a)
- 7.3.2. In the preparation of the indicative APP, the end-user or implementing units of the Procuring Entity shall formulate their respective Project Procurement Management Plans (PPMPs) for their different programs, activities, and projects (PAPs). The PPMP shall include:
- a) information on whether PAPs will be contracted out, implemented by administration in accordance with the guidelines issued by the GPPB, or consigned;
 - b) the type and objective of contract to be employed;
 - c) the extent/size of contract scopes/packages;
 - d) the procurement methods to be adopted, and indicating if the procurement tasks are to be outsourced as provided in Section 7.3.3 of this IRR;
 - e) the time schedule for each procurement activity and for the contract implementation; and
 - f) the estimated budget for the general components of the contract.

For purposes of this Section, consignment refers to an arrangement where the following requisites are present: (a) delivery of goods by their owner (consignor), without sale, to a government agency (consignee); (b) consignee must try to sell the goods and remit the price of the sold goods to the consignor; (c) consignee accepts without any liability except for failure to reasonably protect them from damage; (d) no disbursement of government funds is involved; and (e) at terms not disadvantageous to the GoP.

Based on the specific needs, the end-user or implementing units of the Procuring Entity shall be responsible for the preparation of all documents necessary for the procurement activity, including but shall not be limited to, the technical specifications, scope of work, or terms of reference.^(a)

7.3.3. In order to hasten project implementation, Procuring Entities which may not have the proficiency or capability to undertake a particular procurement, as determined by the HoPE concerned, may outsource the procurement tasks by:

- a) Requesting other GoP agencies to undertake such procurement for them, through the execution of a memorandum of agreement containing specific arrangements, stipulations and covenants, in accordance with government budgeting, accounting and auditing rules;
- b) Engaging private procurement agents to directly undertake the procurement for them, subject to the guidelines to be issued by the GPPB; or
- c) Recruiting or engaging consultants to assist them directly and/or train their staff in the management of the procurement function.^(53.6a)

7.3.4. The PPMPs shall then be submitted to the Procuring Entity's Budget Office for evaluation in order to ensure consistency with the Procuring Entity's budget proposal and compliance with existing budgeting rules. The PPMPs included in the budget proposal shall be forwarded to the BAC Secretariat for consolidation into an indicative APP, and to the BAC for final recommendation of the appropriate procurement modality. For this purpose, the indicative APP shall include the following:

- a) Name of Procurement Project;
- b) Procurement Management Office (PMO)/end-user/implementing unit;
- c) Method of Procurement;
- d) Schedule of identified procurement activities as reflected in the APP form approved by the GPPB;
- e) Source of funds;
- f) Indicative ABC; and
- g) Other relevant descriptions of the project, if applicable.

The indicative APP and budget proposal shall be simultaneously submitted to the HoPE and/or other oversight bodies for approval.^(a)

7.3.5. As soon as the GAA, corporate budget, or appropriation ordinance, as the case may be, becomes final, the end-user or implementing units shall revise and adjust the PPMPs to reflect the budgetary allocation for their respective PAPs. The revised PPMPs shall be submitted to the BAC, through its Secretariat, for the final recommendation of the methods of procurement. The indicative APP shall then be revised and approved in accordance with Section 7.2 of this IRR. The APP shall be submitted to the GPPB on or before the end of January of the budget year, and shall be posted in accordance with E.O. 662, series of 2007, as amended.^(a)

- 7.4. Changes to the individual PPMPs and the consolidated APP may be undertaken every six (6) months or as often as may be required by the HoPE. The respective end-user or implementing units of the Procuring Entity shall be responsible for the changes to the PPMPs, while the BAC Secretariat shall be responsible for the consolidation of these PPMPs into an APP, which shall be subject to the approval of the HoPE.

Changes in the APP, if any, for the budget year shall be submitted to the GPPB in July of the current budget year, and in January of the following budget year.^(a)

- 7.5. The ABC as reflected in the approved APP shall be at all times consistent with the appropriations for the project authorized in the GAA, continuing, and automatic appropriations, the corporate budget, and the appropriations ordinance, as the case may be.^(a)
- 7.6. To facilitate the immediate implementation of procurement of Goods, Infrastructure Projects or Consulting Services, even pending approval of the GAA, corporate budget or appropriations ordinance, as the case may be, and notwithstanding Section 7.2 hereof, the Procuring Entity may undertake the procurement activities short of award.

NGAs, SUCs, Constitutional Commissions or Offices are encouraged to start their procurement activities immediately after the National Expenditure Program (NEP) has been submitted by the President to Congress, provided that the HoPE has approved the corresponding indicative APP. This will facilitate the awarding of procurement contracts after the enactment of the GAA, enabling the timely implementation and completion of programs and projects.

For a contract with a period not exceeding one (1) year, the ABC shall be based on the amount in the indicative APP as included in the proposed national budget submitted by the President to Congress; for GOCCs, on budget levels as proposed to the governing board; or for LGUs, on budget levels as proposed in the executive budget submitted to the Sanggunian. In the case of multi-year contracts, for which a MYOA or an equivalent document is required, the ABC shall be the amount reflected in the MYOA or equivalent document.

No award of contract shall be made until the GAA, corporate budget or appropriations ordinance, as the case may be, has been approved or enacted.⁽ⁿ⁾

Section 26. Modification and Withdrawal of Bids

- 26.1. A bidder may modify its bid, provided that this is done before the deadline for the submission and receipt of bids. Where a bidder modifies its bid, it shall not be allowed to retrieve its original bid, but shall only be allowed to send another bid equally sealed, properly identified, linked to its original bid and marked as a "modification," thereof, and stamped "received" by the BAC. Bid modifications received after the applicable deadline shall not be considered and shall be returned to the bidder unopened.
- 26.2. A bidder may, through a letter, withdraw its bid before the deadline for the receipt of bids. Withdrawal of bids after the applicable deadline shall be subject to appropriate sanctions as prescribed in this IRR. A bidder may also express its intention not to participate in the bidding through a letter which should reach and be stamped received by the BAC before the deadline for the receipt of bids. A bidder that withdraws its bid shall not be permitted to submit another bid, directly or indirectly, for the same contract.

Section 27. Bid Security

- 27.1. All bids shall be accompanied by a bid security, payable to the Procuring Entity concerned as a guarantee that the successful bidder shall, within ten (10) calendar days from receipt of the notice of award, enter into contract with the Procuring Entity and furnish the performance security required in Section 39 of this IRR, except when Section 37.1 of this IRR allows a longer period. Failure to enclose the required bid security in the form and amount prescribed herein shall automatically disqualify the bid concerned.
- 27.2. The bidder shall submit a Bid Securing Declaration, or any form of Bid Security, in an amount not less than the required percentage of the ABC in accordance with the following schedule:^(a)

Form of Bid Security	Amount of Bid Security (Not less than the required percentage of the ABC)
a) Cash or cashier's/manager's check issued by a Universal or Commercial Bank. For biddings conducted by LGUs, the cashier's/manager's check may be issued by other banks certified by the BSP as authorized to issue such financial instrument. ^(a)	Two percent (2%)
b) Bank draft/guarantee or irrevocable letter of credit issued by a Universal or Commercial Bank: <i>Provided, however,</i> That it shall be confirmed or authenticated	

by a Universal or Commercial Bank, if issued by a foreign bank. For biddings conducted by LGUs, bank draft/guarantee, or irrevocable letter of credit may be issued by other banks certified by the BSP as authorized to issue such financial instrument. ^(a)	
c) Surety bond callable upon demand issued by a surety or insurance company duly certified by the Insurance Commission as authorized to issue such security.	Five percent (5%)

- 27.3. The bid security shall be denominated in Philippine Pesos and posted in favor of the Procuring Entity.
- 27.4. Without prejudice to the provisions of the Act and this IRR on the forfeiture of bid securities, bid securities shall be returned only after the bidder with the Lowest Calculated Responsive Bid (LCRB) or Highest Rated Responsive Bid (HRRB), as the case may be, has signed the contract and furnished the performance security, except to those declared by the BAC as failed or post-disqualified in accordance with this IRR, upon submission of a written waiver of their right to file a request for reconsideration and/or protest.
- 27.5. A Bid Securing Declaration is an undertaking which states, among others, that the bidder shall enter into contract with the Procuring Entity and furnish the required performance security within ten (10) calendar days, as indicated in the Bidding Documents, from receipt of the Notice of Award, and commits to pay the corresponding amount as fine and be suspended for a period of time from being qualified to participate in any government procurement activity in the event it violates any of the conditions stated therein as required in the guidelines issued by the GPPB.^(a)
- 27.6. In no case shall the bid security be returned later than the expiration of the bid validity period indicated in the Bidding Documents, unless it has been extended in accordance with Section 28.2 of this IRR.^(a)

Section 28. Bid Validity

- 28.1. Bids and bid securities shall be valid for a reasonable period as determined by the HoPE concerned, which shall be indicated in the Bidding Documents, but in no case shall the period exceed one hundred twenty (120) calendar days from the date of the opening of bids.
- 28.2. Should it become necessary to extend the validity of the bids and bid securities beyond one hundred twenty (120) calendar days, the Procuring Entity concerned shall request in writing all those who submitted bids for such extension before the expiration date therefor. Bidders, however, shall have the right to refuse to grant such extension without forfeiting their bid security.

Section 29. Bid Opening

The BAC shall open the bids immediately after the deadline for the submission and receipt of bids. The time, date, and place of the opening of bids shall be specified in the Bidding Documents.

In case the bids cannot be opened as scheduled due to justifiable reasons, the BAC shall take custody of the bids submitted and reschedule the opening of bids on the next working day or at the soonest possible time through the issuance of a Notice of Postponement to be posted in the PhilGEPS website and the website of the Procuring Entity concerned.

The bidders or their duly authorized representatives may attend the opening of bids. The BAC shall ensure the integrity, security, and confidentiality of all submitted bids. The abstract of bids as read and the minutes of the bid opening shall be made available to the public upon written request and payment of a specified fee to recover cost of materials.^(a)

RULE IX – BID EVALUATION

Section 30. Preliminary Examination of Bids

- 30.1. The BAC shall open the first bid envelopes in public to determine each bidder's compliance with the documents required to be submitted for eligibility and for the technical requirements, as prescribed in this IRR. For this purpose, the BAC shall check the submitted documents of each bidder against a checklist of required documents to ascertain if they are all present, using a non-discretionary "pass/fail" criterion, as stated in the Instructions to Bidders. If a bidder submits the required document, it shall be rated "passed" for that particular requirement. In this regard, bids that fail to include any requirement or are incomplete or patently insufficient shall be considered as "failed." Otherwise, the BAC shall rate the said first bid envelope as "passed."^(a)
- 30.2. Immediately after determining compliance with the requirements in the first envelope, the BAC shall forthwith open the second bid envelope of each remaining eligible bidder whose first bid envelope was rated "passed." The second envelope of each complying bidder shall be opened within the same day, except as provided under Section 33 of this IRR. In case any of the requirements in the second envelope of a particular bid is missing, incomplete or patently insufficient, and/or if the submitted total bid price exceeds the ABC, the BAC shall rate the bid concerned as "failed." Only bids that are determined to contain all the bid requirements for both components shall be rated "passed" and shall immediately be considered for evaluation and comparison.^(a)
- 30.3. For the procurement of Goods where, due to the nature of the requirements of the project, the required technical specifications/requirements of the contract cannot be precisely defined in advance of bidding, or where the problem of technically unequal bids is likely to occur, a two (2)-stage bidding procedure may be employed. In these cases, the Procuring Entity concerned shall prepare the Bidding Documents, including the technical specification in the form of performance criteria only. Under this procedure, prospective bidders shall be requested at the first stage to submit their respective eligibility requirements if needed, and initial technical proposals only (no price tenders). The concerned BAC shall then evaluate the technical merits of the proposals received from eligible bidders vis-à-vis the required performance standards. A meeting/discussion shall then be held by the BAC with those eligible bidders whose technical tenders meet the minimum required standards stipulated in the Bidding Documents for purposes of drawing up the final revised technical specifications/requirements of the contract. Once the final revised technical

specifications are completed and duly approved by the concerned BAC, copies of the same shall be issued to all the bidders identified in the first stage who shall then be required to submit their revised technical tenders, including their price proposals in two (2) separate sealed envelopes in accordance with this IRR, at a specified deadline, after which time no more bids shall be received. The concerned BAC shall then proceed in accordance with the procedure prescribed in this IRR.

- 30.4. For the procurement of Consulting Services, the detailed implementation of the procedure specified in this Section shall be as provided in Section 33 of this IRR.

Section 31. Ceiling for Bid Prices

- 31.1. The ABC shall be the upper limit or ceiling for acceptable bid prices. If a bid price, as evaluated and calculated in accordance with this IRR, is higher than the ABC, the bidder submitting the same shall be automatically disqualified. There shall be no lower limit or floor on the amount of the award.
- 31.2. For Foreign-funded Procurement, the ABC shall be applied as the ceiling: *Provided*, That the following conditions are met:
- a) Bidding Documents are obtainable free of charge on a freely accessible website. If payment of Bidding Documents is required by the Procuring Entity, payment could be made upon the submission of bids.
 - b) The Procuring Entity has procedures in place to ensure that the ABC is based on recent estimates made by the engineer or the responsible unit of the Procuring Entity and that the estimates are based on adequate detailed engineering (in the case of Infrastructure Projects) and reflect the quality, supervision and risk and inflationary factors, as well as prevailing market prices, associated with the types of Goods or Infrastructure Projects to be procured.
 - c) The Procuring Entity has trained cost estimators on estimating prices and analyzing bid variances. In the case of Infrastructure Projects, the Procuring Entity must also have trained quantity surveyors.
 - d) The Procuring Entity has established a system to monitor and report bid prices relative to ABC and engineer's/Procuring Entity's estimate.
 - e) The Procuring Entity has established a monitoring and evaluation system for contract implementation to provide a feedback on actual total costs of Goods and Infrastructure Projects.

However, the GoP and the foreign government/foreign or international financing institution may agree to waive the foregoing conditions.^(a)

Section 32. Bid Evaluation for the Procurement of Goods and Infrastructure Projects

- 32.1. Members of the BAC, its staff and personnel, Secretariat and TWG, as well as Observers, are prohibited from making or accepting any communication with any bidder regarding the evaluation of their bids until the issuance of the Notice of Award. However, the BAC, through its Secretariat, may ask in writing the bidder for a clarification of its bid. All responses to requests for clarification shall be in writing.^(a)

- 32.2. For the procurement of Goods and Infrastructure Projects, the BAC shall evaluate the financial component of the bids to determine the Lowest Calculated Bid using the following steps:
- 32.2.1. The BAC shall immediately conduct a detailed evaluation of all bids using non-discretionary criteria in considering the following:
- a) Completeness of the bid. Unless the Instructions to Bidders specifically allow partial bids, bids not addressing or providing all of the required items in the Bidding Documents including, where applicable, bill of quantities, shall be considered non-responsive and, thus, automatically disqualified. In this regard, where a required item is provided, but no price is indicated, the same shall be considered as non-responsive, but specifying a zero (0) or a dash (-) for the said item would mean that it is being offered for free to the Government, except those required by law or regulations to be provided for; and
 - b) Arithmetical corrections. Consider computational errors and omissions to enable proper comparison of all eligible bids. It may also consider bid modifications if expressly allowed in the Bidding Documents. Any adjustment shall be calculated in monetary terms to determine the calculated prices.^(a)
- 32.2.2. The BAC shall evaluate all bids on an equal footing to ensure fair and competitive bid comparison. For this purpose, all bidders shall be required to include the cost of all taxes, such as, but not limited to, value added tax (VAT), income tax, local taxes, and other fiscal levies and duties which shall be itemized in the bid form and reflected in the detailed estimates. Such bids, including said taxes, shall be the basis for bid evaluation and comparison.
- 32.2.3. In case of discrepancies between: (a) bid prices in figures and in words, the latter shall prevail; (b) total price per item and unit price for the item as extended or multiplied by the quantity of that item, the latter shall prevail; (c) stated total price and the actual sum of prices of component items, the latter shall prevail; (d) unit cost in the detailed estimate and unit cost in the bill of quantities, the latter shall prevail.
- 32.2.4. Bids shall then be ranked in the ascending order of their total calculated bid prices, as evaluated and corrected for computational errors, and other bid modifications, to identify the Lowest Calculated Bid. Total calculated bid prices, as evaluated and corrected for computational errors, and other bid modifications, which exceed the ABC shall be disqualified.
- 32.3. After all bids have been received, opened, examined, evaluated, and ranked, the BAC shall prepare the corresponding Abstract of Bids. All members of the BAC shall sign the Abstract of Bids and attach thereto all the bids with their corresponding bid securities and the minutes or proceedings of the bidding. The Abstract of Bids shall contain the following:
- a) Name of the contract and its location, if applicable;
 - b) Time, date and place of bid opening; and

- c) Names of bidders and their corresponding calculated bid prices arranged from lowest to highest, the amount of bid security and the name of the issuing entity.
- 32.4. The entire evaluation process for the procurement of Goods and Infrastructure Projects shall be completed within seven (7) calendar days from the deadline for receipt of proposals.^(a)

Section 33. Bid Evaluation of Short Listed Bidders for Consulting Services

- 33.1. From submission and receipt of bids until the approval by the HoPE of the ranking of short listed bidders, those that have submitted their bids are prohibited from making any communication with any BAC member, including its staff and personnel, as well as its Secretariat and TWG, regarding matters connected to their bids. However, the BAC, through its Secretariat, may ask in writing the bidder for a clarification of its bid. All responses to requests for clarification shall be in writing.
- 33.2. The purpose of bid evaluation is to determine the Highest Rated Bid using the following steps:
- 33.2.1. The BAC shall conduct a detailed evaluation of bids using either of the following evaluation procedures as specified in the Bidding Documents:
- a) Quality-Based Evaluation Procedure
 - i) A two-stage procedure shall be adopted whereby each consultant shall be required to submit his technical and financial proposals simultaneously in separate sealed envelopes.
 - ii) After receipt of bids, the technical proposals shall first be opened and evaluated, in accordance with Section 33.2.2 of this IRR. The BAC shall rank the consultants in descending order based on the numerical ratings of their technical proposals and identify the Highest Rated Bid: *Provided, however,* That the Highest Rated Bid shall pass the minimum score indicated in the Bidding Documents.
 - iii) The HoPE shall approve or disapprove the recommendations of the BAC within two (2) calendar days after receipt of the results of the evaluation from the BAC.
 - iv) After approval by the HoPE of the Highest Rated Bid, its financial proposal shall then be opened. The BAC shall, within three (3) calendar days, notify and invite the consultant with the Highest Rated Bid for the opening of financial proposal for the purpose of conducting negotiations with the said consultant. In the letter of notification, the BAC shall inform the consultant of the issues in the technical proposal the BAC may wish to clarify during negotiations.
 - v) Negotiations shall be in accordance with Section 33.2.5 of this IRR: *Provided,* That the amount indicated in the financial envelope shall be made as the basis for negotiations and the total contract amount shall not exceed the amount indicated in the envelope and the ABC as stated in the Bidding Documents.
 - b) Quality-Cost Based Evaluation Procedure

- i) The technical proposal together with the financial proposal shall be considered in the evaluation of consultants. The technical proposals shall be evaluated first using the criteria in Section 33.2.2 of this IRR. The financial proposals of the consultants who meet the minimum technical score shall then be opened.
- ii) The financial and technical proposals shall be given corresponding weights with the financial proposal given a minimum weight of fifteen percent (15%) up to a maximum of forty percent (40%). The weight of the technical criteria shall be adjusted accordingly such that their total weight in percent together with the weight given to the financial proposal shall add to one hundred percent (100%). The exact weights shall be approved by the HoPE upon the recommendation of the BAC and indicated in the Bidding Documents. The BAC shall rank the consultants in descending order based on the combined numerical ratings of their technical and financial proposals and identify the Highest Rated Bid.
- iii) The HoPE shall approve or disapprove the recommendations of the BAC within two (2) calendar days after receipt of the results of the evaluation from the BAC.
- iv) After approval by the HoPE of the Highest Rated Bid, the BAC shall, within three (3) calendar days, notify and invite the consultant with the Highest Rated Bid for negotiation in accordance with Section 33.2.5 of this IRR, except for the financial proposal under item (e) thereof.^(a)

33.2.2. The technical proposals of consultants shall be evaluated based on the following criteria and using the corresponding numerical weights indicated in the Bidding Documents:

- a) Quality of personnel to be assigned to the project which covers suitability of key staff to perform the duties of the particular assignments and general qualifications and competence including education and training of the key staff;
- b) Experience and capability of the consultant which include records of previous engagement and quality of performance in similar and in other projects; relationship with previous and current clients; and, overall work commitments, geographical distribution of current/impending projects and attention to be given by the consultant. The experience of the consultant to the project shall consider both the overall experiences of the firm and the individual experiences of the principal and key staff including the times when employed by other consultants; and
- c) Plan of approach and methodology with emphasis on the clarity, feasibility, innovativeness and comprehensiveness of the plan approach, and the quality of interpretation of project problems, risks, and suggested solutions.

For complex or unique undertakings, such as those involving new concepts/technology or financial advisory services, participating short listed consultants may be required, at the option of the agency concerned, to make an

oral presentation to be presented by each consultant, or its nominated Project Manager or head, in case of firms, within fifteen (15) calendar days after the deadline for submission of technical proposals.

33.2.3. In order to eliminate bias in evaluating the technical proposals, it is recommended that the highest and lowest scores for each consultant for each criterion shall not be considered in determining the average scores of the consultants, except when the evaluation is conducted in a collegial manner.

33.2.4. All participating short listed consultants shall be furnished the results (ranking and total scores only) of the evaluation after the approval by the HoPE of the ranking. Said results shall also be posted in the PhilGEPS and the website of the Procuring Entity, whenever available, for a period of not less than seven (7) calendar days.

33.2.5. Negotiations shall cover the following:

- a) Discussion and clarification of the terms of reference and scope of services;
- b) Discussion and finalization of the methodology and work program proposed by the consultant;
- c) Consideration of appropriateness of qualifications and pertinent compensation, number of man-months and the personnel to be assigned to the job, taking note of over-qualified personnel, to be commensurate with the compensation of personnel with the appropriate qualifications, number of man-months and schedule of activities (manning schedule);
- d) Discussion on the services, facilities and data, if any, to be provided by Procuring Entity concerned;
- e) Discussion on the financial proposal submitted by the consultant; and
- f) Provisions of the contract.

Except for meritorious reasons, negotiations with any one consultant shall be completed within ten (10) calendar days.

33.2.6. Total calculated bid prices, as evaluated and corrected for minor arithmetical corrections, such as computational errors, which exceed the ABC shall not be considered.

33.3. There should be no replacement of key personnel before the awarding of contract, except for justifiable reason as may be determined by the BAC, such as, illness, death, or resignation provided it is duly supported by relevant certificates, or any delay caused by the Procuring Entity. The BAC shall immediately consider negotiation with the next ranked consultant if unjustifiable replacement of personnel by the first ranked firm is made. Once the contract has been awarded, no replacement shall be allowed by the HoPE until after fifty percent (50%) of the personnel's man-months have been served, except for justifiable reasons, subject to appropriate sanctions as prescribed in the PBDs.^(a)

33.4. The entire evaluation process, including the submission of the results thereof to the HoPE for approval, shall be completed in not more than twenty-one (21) calendar days

after the deadline for receipt of proposals. The proposal with the highest score shall be identified as the Highest Rated Bid.

RULE X – POST-QUALIFICATION

Section 34. Objective and Process of Post-Qualification

- 34.1. The Lowest Calculated Bid/Highest Rated Bid shall undergo post-qualification in order to determine whether the bidder concerned complies with and is responsive to all the requirements and conditions as specified in the Bidding Documents.
- 34.2. Within five (5) calendar days from receipt by the bidder of the notice from the BAC that the bidder has the Lowest Calculated Bid or Highest Rated Bid, the bidder shall submit to the BAC its latest income and business tax returns, and other appropriate licenses and permits required by law and stated in the Bidding Documents.

Failure to submit any of the post-qualification requirements on time, or a finding against the veracity thereof, shall disqualify the bidder for award: *Provided*, That in the event that a finding against the veracity of any of the documents submitted is made, it shall cause the forfeiture of the Bid Security in accordance with Section 69 of this IRR.^(a)

- 34.3. The post-qualification shall verify, validate, and ascertain all statements made and documents submitted by the bidder with the Lowest Calculated Bid/Highest Rated Bid, using non-discretionary criteria, as stated in the Bidding Documents. These criteria shall consider, but shall not be limited to, the following:
- a) Legal Requirements. To verify, validate, and ascertain licenses, certificates, permits, and agreements submitted by the bidder, and the fact that it is not included in any "blacklist" as provided in Section 25.3 of this IRR. For this purpose, the GPPB shall maintain a consolidated file of all "blacklisted" suppliers, contractors, and consultants.
 - b) Technical Requirements. To determine compliance of the goods, infrastructure projects, or consulting services offered with the requirements specified in the Bidding Documents, including, where applicable:
 - i) Verification and validation of the bidder's stated competence and experience, and the competence and experience of the bidder's key personnel to be assigned to the project, for the procurement of Infrastructure Projects and Consulting Services;
 - ii) Verification of availability and commitment, and/or inspection and testing for the required capacities and operating conditions, of equipment units to be owned/leased/under purchase by the bidder for use in the contract under bidding, as well as checking the performance of the bidder in its ongoing government and private contracts, if any of these ongoing contracts shows:
 - a. Negative slippage of at least fifteen percent (15%) in any one project or a negative slippage of at least ten percent (10%) in each of two (2) or more contracts;

- b. Failure of the contractor to commence repair works on ongoing contracts within seven (7) calendar days and to complete them within thirty (30) calendar days after receipt of the Procuring Entity's notice of defects and deficiencies;
- c. Failure of the contractor to commence repair works on contracts with pending certificates of acceptance within thirty (30) calendar days and complete them within ninety (90) days after receipt of the Procuring Entity's notice of defects and failures; or
- d. Substandard quality of work as per contract plans and specifications, or unsatisfactory performance of the contractor's obligations as per contract terms and conditions, at the time of inspection.

If the BAC verifies any of these deficiencies to be due to the contractor's fault or negligence, the agency shall disqualify the contractor from the award, for the procurement of Infrastructure Projects.

- iii) Verification and/or inspection and testing of the goods/product, after-sales and/or maintenance capabilities, in applicable cases, as well as checking the following:
 - a. Delay in the partial delivery of goods amounting to ten percent (10%) of the contract price in its ongoing government and private contracts;
 - b. If any of these contracts shows the bidder's failure to deliver or perform any or all of the goods or services within the period(s) specified in the contract or within any extension thereof granted by the Procuring Entity pursuant to a request made by the supplier prior to the delay, and such failure amounts to at least ten percent (10%) of the contract price; or
 - c. Unsatisfactory performance of the supplier's obligations as per contract terms and conditions at the time of inspection.

If the BAC verifies any of these deficiencies to be due to the bidder's fault or negligence, the BAC shall disqualify the bidder from the award, for the procurement of Goods.

- iv) Ascertainment of the authenticity of the bid security and its correctness as to type, amount, form and wording, and validity period, as required in the Bidding Documents.
- c) Financial Requirements. To verify, validate and ascertain the bid price proposal of the bidder and, whenever applicable, the required committed Line of Credit in the amount specified and over the period stipulated in the Bidding Documents, or the bidder's NFCC to ensure that the bidder can sustain the operating cash flow of the transaction. ^(a)

34.4. If the BAC determines that the bidder with the Lowest Calculated Bid/Highest Rated Bid passes all the criteria for post-qualification, it shall declare the said bid as the LCRB or HRRB, and recommend to the HoPE the award of contract to the said bidder at its submitted bid price or its calculated bid price, whichever is lower or, in the case of

quality-based evaluation procedure, submitted bid price or its negotiated price, whichever is lower.

- 34.5. If, however, the BAC determines that the bidder with the Lowest Calculated Bid/Highest Rated Bid fails the criteria for post-qualification, it shall immediately notify the said bidder in writing of its post-disqualification and the grounds for it.
- 34.6. Immediately after the BAC has notified the first bidder of its post-disqualification, and notwithstanding any pending request for reconsideration thereof, the BAC shall initiate and complete the same post-qualification process on the bidder with the second Lowest Calculated Bid/Highest Rated Bid. If the second bidder passes the post-qualification, and provided that the request for reconsideration of the first bidder has been denied, the second bidder shall be post-qualified as the bidder with the LCRB or HRRB.
- 34.7. If the second bidder, however, fails the post-qualification, the procedure for post-qualification shall be repeated for the bidder with the next Lowest Calculated Bid/Highest Rated Bid, and so on until the LCRB or HRRB, as the case may be, is determined for award, subject to Section 37 of this IRR.
- 34.8. The post-qualification process shall be completed in not more than twelve (12) calendar days from the determination of the Lowest Calculated Bid/Highest Rated Bid. In exceptional cases, the post-qualification period may be extended by the HoPE, but in no case shall the aggregate period exceed forty-five (45) calendar days for Goods and Infrastructure Projects, or thirty (30) calendar days in Consulting Services.

In case of post-disqualification of the bidder with the lowest calculated bid/highest rated bid, the BAC shall be given the same fresh period to conduct the post-qualification of the next lowest calculated bid/highest rated bid until a bidder is post-qualified or failure of bidding is declared based on Section 35.1(c) of this IRR.^(a)

Section 35. Failure of Bidding

- 35.1. The BAC shall declare the bidding a failure when:
 - a) No bids are received;
 - b) All prospective bidders are declared ineligible;
 - c) All bids fail to comply with all the bid requirements or fail post-qualification, or, in the case of Consulting Services, there is no successful negotiation; or
 - d) The bidder with the LCRB, HRRB, SCRB or SRRB refuses, without justifiable cause, to accept the award of contract, and no award is made in accordance with Section 40 of the Act and this IRR.
- 35.2. In order to determine the reason for the failed bidding, the BAC shall conduct a mandatory review and evaluation of the terms, conditions, and specifications in the Bidding Documents, including its cost estimates.
- 35.3. Based on its findings, the BAC shall revise the terms, conditions, and specifications, and if necessary, adjust the ABC, subject to the required approvals, and conduct a re-bidding with re-advertisement and/or posting, as provided for in Section 21.2 of this IRR.

- 35.4. All bidders who have initially responded to the Invitation to Bid/Request for Expression of Interest and have been declared eligible or short listed in the previous biddings shall be allowed to submit new bids. The BAC shall observe the same process and set the new periods according to the same rules followed during the previous bidding(s).
- 35.5. Should there occur a second failure of bidding, the Procuring Entity may resort to negotiated procurement, as provided for in Section 53.1 of this IRR.

Section 36. Single Calculated/Rated and Responsive Bid Submission

A Single Calculated and Responsive Bid (SCRB) or a Single Rated and Responsive Bid (SRRB) shall be considered for award if it falls under any of the following circumstances:

- a) If after advertisement, only one prospective bidder applies for eligibility check, in accordance with the provisions of this IRR, and it meets the eligibility requirements or criteria, after which it submits a bid which is found to be responsive to the bidding requirements;
- b) If after advertisement, more than one prospective bidder applies for eligibility check, in accordance with the provisions of this IRR, but only one bidder meets the eligibility requirements or criteria, after which it submits a bid which is found to be responsive to the bidding requirements; or
- c) If after the eligibility check, more than one bidder meets the eligibility requirements, but only one bidder submits a bid, and its bid is found to be responsive to the bidding requirements.

In all instances, the Procuring Entity shall ensure that the ABC reflects the most advantageous prevailing price for the Government.^(a)

RULE XI – AWARD, IMPLEMENTATION AND TERMINATION OF THE CONTRACT

Section 37. Notice and Execution of Award

37.1. *Contract Award*

- 37.1.1. The BAC shall recommend to the HoPE the award of contract to the bidder with the LCRB, HRRB, SCRB, or SRRB after the post-qualification process has been completed.

To facilitate the approval of the award, the BAC shall submit the following supporting documents to the HoPE:

- a) Resolution of the BAC recommending award;
- b) Abstract of Bids;
- c) Duly approved program of work or delivery schedule, and Cost Estimates;
- d) Document issued by appropriate entity authorizing the Procuring Entity to incur obligations for a specified amount; and
- e) Other pertinent documents required by existing laws, rules, and/or the Procuring Entity concerned.

Within three (3) calendar days from the issuance of the resolution recommending award of the contract, the BAC shall notify all other bidders, in writing, of its recommendation. (a)

- 37.1.2. Within a period not exceeding fifteen (15) calendar days from the determination by the BAC of the bidder with the LCRB, HRRB, SCRB, or SRRB, and the recommendation to award the contract, the HoPE or his duly authorized representative shall approve or disapprove the said recommendation.^(a)
- 37.1.3. In case of approval, the HoPE shall immediately issue the Notice of Award to the bidder with the LCRB, HRRB, SCRB or SRRB.

In the event of disapproval, which shall be based only on valid, reasonable, and justifiable grounds as provided for under Section 41 of this IRR, the HoPE shall notify the BAC and the bidder in writing of such decision and the grounds for it.

When applicable, the BAC shall conduct a post-qualification of the bidder with the next Lowest Calculated Bid or Highest Rated Bid, as provided in Section 34.6 of this IRR.

A request for reconsideration may be filed by the bidder with the HoPE within three (3) calendar days from receipt of the notice of disapproval. The HoPE shall resolve with finality the request for reconsideration within seven (7) calendar days from the filing thereof and furnish the bidder a copy of the resolution immediately from its promulgation. In no case shall the request for reconsideration stay or delay the bidding process. However, the request for reconsideration must first be resolved before any award is made.^(a)

- 37.1.4. Notwithstanding the issuance of the Notice of Award, award of contract shall be subject to the following conditions:
- a) Submission of the following documents within ten (10) calendar days from Notice of Award:
 - i) Valid JVA, if applicable;
 - ii) In the case of procurement by a Philippine Foreign Office or Post, the PhilGEPS Registration Number of the winning foreign bidder;
 - iii) A valid PCAB license and registration for the type and cost of the contract to be bid for foreign bidders in Infrastructure Projects, when the Treaty or International or Executive Agreement expressly allows submission of such license and registration as a pre-condition to the Notice of Award; or
 - iv) In the case of Consulting Services, the SEC Certificate of Registration of the foreign consulting firm, and/or the authorization or license issued by the appropriate GoP professional regulatory body of the foreign professionals engaging in the practice of regulated professions and allied professions, where applicable.
 - b) Posting of performance security in accordance with Section 39 of this IRR;
 - c) Signing of the contract as provided in Section 37.2 of this IRR; and

- d) Approval by higher authority, if required, as provided in Section 37.3 of this IRR.^(a)

37.1.5. Contract award shall be made within the bid validity period provided in Section 28 of this IRR.

37.1.6. The BAC, through the Secretariat, shall post, within three (3) calendar days from its issuance, the Notice of Award in the PhilGEPS, the website of the Procuring Entity, if any, and any conspicuous place in the premises of the Procuring Entity.

37.2. *Contract Signing*

37.2.1. The winning bidder shall post the required Performance Security and enter into contract with the Procuring Entity within ten (10) calendar days from receipt by the winning bidder of the Notice of Award.

- 39.4. The performance security shall remain valid until issuance by the Procuring Entity of the Certificate of Final Acceptance.
- 39.5. The performance security may be released by the Procuring Entity after the issuance of the Certificate of Final Acceptance, subject to the following conditions:
- a) Procuring Entity has no claims filed against the contract awardee or the surety company;
 - b) It has no claims for labor and materials filed against the contractor; and
 - c) Other terms of the contract.^(a)
- 39.6. For the procurement of Infrastructure Projects, the winning bidder shall post an additional performance security following the schedule above to cover any cumulative increase of more than ten percent (10%) over the original value of the contract as a result of amendments to order or change orders, extra work orders and supplemental agreements, as the case may be. - 39.7. In case of a reduction in the contract value, or, in the case of procurement of Infrastructure Projects, for partially completed works under the contract which are usable and accepted by the GoP, and the use of which, in the judgment of the implementing agency or the Procuring Entity, will not affect the structural integrity of the entire project, the said agency or Procuring Entity shall allow a proportional reduction in the original performance security: *Provided*, That any such reduction is more than ten percent (10%) and that the aggregate of such reductions is not more than fifty percent (50%) of the original Performance Security.

- 40.1. If the bidder with the LCRB, HRRB, SCRB or SRRB fails, refuses or is unable to submit the documents required under Section 37.1 of this IRR or to make good its bid by entering into a contract with the Procuring Entity or post the required Performance Security within the period stipulated in this IRR or in the Bidding Documents, the bid security shall be forfeited and the appropriate sanctions provided in this IRR and existing laws shall be imposed, except where such failure, refusal or inability is through no fault of the said bidder.

- 40.2. In the case of the failure, refusal or inability of the bidder with LCRB or HRRB to submit the documents required under Section 37.1 of this IRR or to enter into contract and post the required Performance Security, as provided in this Section, the BAC shall disqualify the said bidder, and shall initiate and complete the post-qualification process on the bidder with the second Lowest Calculated Bid/Highest Rated Bid: *Provided, however,* That in the case of Consulting Services, the second Highest Rated Bid has successfully undergone the negotiation stage in accordance with Section 33.2.5 of this IRR. This procedure shall be repeated until the LCRB or HRRB is determined for award. However, if no bidder passes post-qualification, the BAC shall declare the bidding a failure and conduct a re-bidding with re-advertisement. Should there occur another failure of bidding after the conduct of the contract's re-bidding, the Procuring Entity concerned may enter into a negotiated procurement.

- b) If the BAC is found to have failed in following the prescribed bidding procedures; or
- c) For any justifiable and reasonable ground where the award of the contract will not redound to the benefit of the GoP, as follows: (i) if the physical and economic conditions have significantly changed so as to render the project no longer economically, financially, or technically feasible, as determined by the HoPE; (ii) if the project is no longer necessary as determined by the HoPE; or (iii) if the source of funds for the project has been withheld or reduced through no fault of the Procuring Entity.^(a)

- 43.1.2. The Procuring Entity shall give preference to materials and supplies produced, made and manufactured in the Philippines, subject to the conditions herein below specified. The award shall be made to the lowest Domestic Bidder, provided his bid is not more than fifteen percent (15%) in excess of the lowest Foreign Bid.^(a)
- 43.1.3. A Domestic Bidder can only claim preference if it secures from the DTI a certification that the articles forming part of its bid are substantially composed of articles, materials, or supplies grown, produced, or manufactured in the Philippines.^(43.1.4)

43.2. *Procedures and Guidelines*

- 43.2.1. The preference shall be applied when the lowest Foreign Bid is lower than the lowest bid offered by a Domestic Bidder. The Procuring Entity shall ensure that both bids are responsive to the minimum requirements as specified in the Bidding Documents.^(a)

Section 45. Provincial Bidders

In accordance with Section 45 of the Act, the right to match accorded to provincial bidders is no longer available after 26 January 2008.

RULE XIV – LEASE OF COMPUTERS, COMMUNICATIONS, INFORMATION AND OTHER EQUIPMENT

Section 46. Lease Contracts

The lease of construction and office equipment, including computers, communication and information technology equipment, are subject to the same competitive bidding and to the processes prescribed under the Act and this IRR. Lease may also cover lease purchases or lease-to-own and similar variations.

RULE XV – DISCLOSURE OF RELATIONS

Section 47. Disclosure of Relations

- 47.1 All bids shall be accompanied by a sworn affidavit of the bidder that it is not related to the HoPE, members of the BAC, the TWG, and the BAC Secretariat, the head of the PMO or the end-user or implementing unit, and the project consultants, by consanguinity or affinity up to the third civil degree. Failure to comply with the aforementioned provision shall be a ground for the automatic disqualification of the bid in consonance with Section 30 of this IRR. For this reason, relation to the aforementioned persons within the third civil degree of consanguinity or affinity shall automatically disqualify the bidder from participating in the procurement of contracts of the Procuring Entity notwithstanding the act of such persons inhibiting

themselves from the procurement process. On the part of the bidder, this provision shall apply to the following persons:

- a) If the bidder is an individual or a sole proprietorship, to the bidder himself;
- b) If the bidder is a partnership, to all its officers and members;
- c) If the bidder is a corporation, to all its officers, directors, and controlling stockholders;
- d) If the bidder is a cooperative, to all its officers, directors, and controlling shareholders or members; and
- e) If the bidder is a joint venture, the provisions of items (a), (b), (c), or (d) of this Section shall correspondingly apply to each of the members of the said joint venture, as may be appropriate.^(a)

47.2. All bidders also found to have conflicting interests with each other shall be disqualified to participate in the procurement at hand, without prejudice to the imposition of appropriate administrative, civil, and criminal sanctions. A bidder may be considered to have conflicting interests with another bidder in any of the events described in paragraphs (a) through (c) below and a general conflict of interest in any of the circumstances set out in paragraphs (d) through (j) below:

- a) A bidder has controlling shareholders in common with another bidder;
- b) A bidder receives or has received any direct or indirect subsidy from any other bidder;
- c) A bidder has the same legal representative as that of another bidder for purposes of this bid;
- d) A bidder has a relationship, directly or through third parties, that puts them in a position to have access to information about or influence on the bid of another bidder or influence the decisions of the Procuring Entity regarding this bidding process. This will include a firm or an organization who lends, or temporarily seconds, its personnel to firms or organizations which are engaged in consulting services for the preparation related to procurement for or implementation of the project if the personnel would be involved in any capacity on the same project;
- e) A bidder submits more than one bid in this bidding process. However, this does not limit the participation of subcontractors in more than one bid;
- f) A bidder who participated as a consultant in the preparation of the design or technical specifications of the Goods and related services that are the subject of the bid;
- g) A bidder who lends, or temporarily seconds, its personnel to firms or organizations which are engaged in consulting services for the preparation related to procurement for or implementation of the project, if the personnel would be involved in any capacity on the same project;
- h) If a consultant combines the function of consulting with those of contracting and/or supply of equipment;
- i) If a consultant is associated with, affiliated to, or owned by a contractor or a manufacturing firm with departments or design offices offering services as

consultants unless such consultant includes relevant information on such relationships along with a statement in the technical proposal cover letter to the effect that the consultant shall limit its role to that of a consultant and disqualify itself and its associates from work in any other capacity that may emerge from the project (including bidding for any part of the future project). The contract with the consultant selected to undertake the project shall contain an appropriate provision to such effect; or

- j) If there is a conflict among consulting projects, the consultant (including its personnel and subcontractors) and any subsidiaries or entities controlled by such consultant shall not be recruited for the relevant project. The duties of the consultant depend on the circumstances of each case. While continuity of consulting services may be appropriate in particular situations where no conflict exists, a consultant cannot be recruited to carry out a project that, by its nature, shall result in conflict with a prior or current project of such consultant. Examples of the situations mentioned are when a consultant engaged to prepare engineering design for an infrastructure project shall not be recruited to prepare an independent environmental assessment for the same project; similarly, a consultant assisting a Procuring Entity in privatization of public assets shall not purchase, nor advise purchasers, of such assets; or a consultant hired to prepare terms of reference for a project shall not be recruited for the project in question.⁽ⁿ⁾

RULE XVI – ALTERNATIVE METHODS OF PROCUREMENT

Section 48. Alternative Methods

- 48.1. Subject to the prior approval of the HoPE, and whenever justified by the conditions provided in this Act, the Procuring Entity may, in order to promote economy and efficiency, resort to any of the alternative methods of procurement provided in this Rule. In all instances, the Procuring Entity shall ensure that the most advantageous price for the Government is obtained.
- 48.2. In accordance with Section 10 of this IRR, as a general rule, the Procuring Entities shall adopt competitive bidding as the general method of procurement and shall see to it that the procurement program allows sufficient lead time for such competitive bidding. Alternative methods of procurement shall be resorted to only in highly exceptional cases provided for in this Rule.
- 48.3. The method of procurement to be used shall be as indicated in the approved APP. If the original method of procurement recommended in the APP was competitive bidding but cannot be ultimately pursued, the BAC, through a resolution, shall justify and recommend the change in the method of procurement to be approved by the HoPE. Such changes must be reflected in the APP to be submitted to the GPPB, pursuant to Section 7.4 of this IRR.^(a)

Section 49. Limited Source Bidding

- 49.1 *Limited Source Bidding*, otherwise known as selective bidding, is a method of procurement of Goods and Consulting Services that involves direct invitation to bid by the Procuring Entity from the list of pre-selected suppliers or consultants with known experience and proven capability on the requirements of the particular contract. This

alternative method of procurement may be employed under any of the following conditions:

- a) Procurement of highly specialized types of goods (*e.g.*, sophisticated defense equipment, complex air navigation systems, coal) and consulting services where only a few suppliers or consultants are known to be available, such that resorting to the competitive bidding method will not likely result in any additional suppliers or consultants participating in the bidding; or
- b) Procurement of major plant components where it is deemed advantageous to limit the bidding to known qualified bidders in order to maintain uniform quality and performance of the plant as a whole.^(49.1a)

49.2 The pre-selected suppliers or consultants shall be those appearing in a list maintained by the relevant government authority that has expertise in the type of procurement concerned. The list of pre-selected suppliers or consultants shall be updated periodically. A copy of the list shall be submitted to, and maintained updated with, the GPPB.

49.3 The pre-selection shall be based upon the capability and resources of the bidders to perform the contract taking into account their experience and past performance on similar contracts, capabilities with respect to personnel equipment or manufacturing facilities, and financial position. Pre-selection shall be done in accordance with the following procedures provided in the GPMs.

The BAC of the concerned Procuring Entity shall directly invite all the suppliers or consultants appearing in the pre-selected list. All other procedures for competitive bidding shall be undertaken, except for the advertisement of Invitation to Bid/Request for Expression of Interest under Section 21.2.1 of this IRR.

Section 50. Direct Contracting

Direct Contracting or single source procurement is a method of procurement of Goods that does not require elaborate Bidding Documents. The supplier is simply asked to submit a price quotation or a pro-forma invoice together with the conditions of sale. The offer may be accepted immediately or after some negotiations. Direct contracting may be resorted to by concerned Procuring Entities under any of the following conditions:

- a) Procurement of Goods of proprietary nature which can be obtained only from the proprietary source, *i.e.* when patents, trade secrets, and copyrights prohibit others from manufacturing the same item;
- b) When the procurement of critical components from a specific supplier is a condition precedent to hold a contractor to guarantee its project performance, in accordance with the provisions of its contract; or
- c) Those sold by an exclusive dealer or manufacturer which does not have sub-dealers selling at lower prices and for which no suitable substitute can be obtained at more advantageous terms to the GoP.

Section 51. Repeat Order

Repeat Order, when provided for in the APP, is a method of procurement of Goods from the previous winning bidder, whenever there is a need to replenish goods procured under a

contract previously awarded through Competitive Bidding. Repeat orders shall likewise be subject to the following conditions:

- a) Unit prices of the repeat order must be the same as or lower than those in the original contract: *Provided*, That such prices are still the most advantageous to the GoP after price verification;
- b) The repeat order will not result in splitting of contracts, requisitions, or purchase orders, as provided for in Section 54.1 of this IRR;
- c) Except in cases duly approved by the GPPB, the repeat orders shall be availed of only within six (6) months from the date of the Notice to Proceed arising from the original contract: *Provided*, That there has been a partial delivery, inspection and acceptance of the goods within the same 6-month period; and
- d) Repeat orders shall not exceed twenty-five percent (25%) of the quantity of each item in the original contract. In order not to exceed the 25% threshold, the goods under the original contract must be:
 - i. Quantifiable
 - ii. Divisible; and
 - iii. Consisting of at least four (4) units per item.^(a)

Section 52. Shopping

52.1. *Shopping* is a method of procurement of Goods whereby the Procuring Entity simply requests for the submission of price quotations for readily available off-the-shelf goods or ordinary/regular equipment to be procured directly from suppliers of known qualifications. This method of procurement shall be employed in any of the following cases:

- a) When there is an unforeseen contingency requiring immediate purchase: *Provided, however*, That the amount shall not exceed the thresholds prescribed in Annex "H" of this IRR.
- b) Procurement of ordinary or regular office supplies and equipment not available in the Procurement Service involving an amount not exceeding the thresholds prescribed in Annex "H" of this IRR.

52.2. The phrase "ordinary or regular office supplies" shall be understood to include those supplies, commodities, or materials which are necessary in the transaction of official businesses, and consumed in the day-to-day operations.

However, office supplies shall not include services such as repair and maintenance of equipment and furniture, as well as trucking, hauling, janitorial, security, and related or analogous services.^(a)

52.3. Under Section 52.1 (b) of this IRR, at least three (3) price quotations from bona fide suppliers shall be obtained.

52.4. The thresholds prescribed in Annex "H" of this IRR shall be subject to a periodic review by the GPPB. For this purpose, the GPPB shall be authorized to increase or decrease the said amount in order to reflect changes in economic conditions and for other justifiable reasons.

Section 53. Negotiated Procurement

Negotiated Procurement is a method of procurement of Goods, Infrastructure Projects and Consulting services, whereby the Procuring Entity directly negotiates a contract with a technically, legally and financially capable supplier, contractor or consultant in any of the following cases:

- 53.1. **Two Failed Biddings.** Where there has been failure of competitive bidding or Limited Source Bidding for the second time as provided in Section 35 of the Act and this IRR.^(a)
- 53.2. **Emergency Cases.** In case of imminent danger to life or property during a state of calamity, or when time is of the essence arising from natural or man-made calamities or other causes where immediate action is necessary to prevent damage to or loss of life or property, or to restore vital public services, infrastructure facilities and other public utilities. In the case of Infrastructure Projects, the Procuring Entity has the option to undertake the project through negotiated procurement or by administration or, in high security risk areas, through the AFP.
- 53.3. **Take-Over of Contracts.** Take-over of contracts, which have been rescinded or terminated for causes provided for in the contract and existing laws, where immediate action is necessary to prevent damage to or loss of life or property, or to restore vital public services, infrastructure facilities and other public utilities.^(a)
- 53.4. **Adjacent or Contiguous.** Where the subject contract is adjacent or contiguous to an ongoing Infrastructure Project or Consulting Service where the consultants have unique experience and expertise to deliver the required service: *Provided, however,* That (a) the original contract is the result of a Competitive Bidding; (b) the subject contract to be negotiated has similar or related scopes of work; (c) it is within the contracting capacity of the contractor/consultant; (d) the contractor/consultant uses the same prices or lower unit prices as in the original contract less mobilization cost; (e) the amount of the contiguous or adjacent work involved does not exceed the amount of the ongoing project; and (f) the contractor/consultant has no negative slippage/delay: *Provided, further,* That negotiations for the procurement of the contiguous or adjacent work are commenced before the expiry of the original contract.^(a)
- 53.5. **Agency-to-Agency.** Procurement of Goods, Infrastructure Projects and Consulting Services from another agency of the GoP, such as the DBM-PS, which is tasked with a centralized procurement of Common-Use Supplies for the GoP in accordance with Letters of Instruction No. 755 and E.O. 359, s. 1989.
- 53.6. **Scientific, Scholarly or Artistic Work, Exclusive Technology and Media Services.** Where Goods, Infrastructure Projects and Consulting Services can be contracted to a particular supplier, contractor or consultant and as determined by the HoPE, for any of the following:
 1. The requirement is for:
 - a. Work of art; commissioned work or services of an artist for a specific artist skills (*e.g.,* Singer, poet, writer, painter, sculptor, etc.);
 - b. Scientific, academic, scholarly work or research, or legal services;

- c. Highly-specialized life-saving medical equipment, as certified by the Department of Health (DOH);
- d. Scientific, technical, economic, business, trade or legal journal, magazine, paper, subscription, or other exclusive statistical publications and references; or
- e. Media documentation, advertisement, or announcement through television, radio, newspaper, internet, and other communication media.

Due to the nature of the information to be disseminated, alongside principles of transparency, efficiency and economy, award to more than one (1) supplier may be made by the Procuring Entity.

- 2. The construction or installation of an infrastructure facility where the material, equipment, or technology under a proprietary right can only be obtained from the same contractor.⁽ⁿ⁾

- 53.7. **Highly Technical Consultants.** In the case of individual consultants hired to do work that is (i) highly technical or proprietary; or (ii) primarily confidential or policy determining, where trust and confidence are the primary consideration for the hiring of the consultant: *Provided, however,* That the term of the individual consultants shall, at the most, be on a six month basis, renewable at the option of the appointing HoPE, but in no case shall exceed the term of the latter.
- 53.8. **Defense Cooperation Agreement.** Upon prior approval by the President of the Philippines, and when the procurement for use by the AFP involves major defense equipment or materiel and/or defense-related consultancy services, when the expertise or capability required is not available locally, and the Secretary of National Defense has determined that the interests of the country shall be protected by negotiating directly with an agency or instrumentality of another country with which the Philippines has entered into a defense cooperation agreement or otherwise maintains diplomatic relations: *Provided, however,* That the performance by the supplier of its obligations under the procurement contract shall be covered by a performance security in accordance with Section 39 of this IRR.
- 53.9. **Small Value Procurement.** Procurement of Goods, Infrastructure Projects and Consulting Services, where the amount involved does not exceed the threshold prescribed in Annex "H" of this IRR: *Provided,* That in case of Goods, the procurement does not fall under shopping in Section 52 of this IRR.^(a)
- 53.10. **Lease of Real Property and Venue.** Lease of real property and venue for official use, subject to Annex "H" of this IRR.^(a)
- 53.11. **NGO Participation.** When an appropriation law or ordinance earmarks an amount to be specifically contracted out to Non-Governmental Organizations (NGOs), the Procuring Entity may enter into a Memorandum of Agreement with an NGO, subject to the guidelines issued by the GPPB for the purpose.^(a)
- 53.12. **Community Participation.** Where, in the interest of project sustainability or to achieve certain specific social objectives, it is desirable in selected projects, or its components, to call for participation of local communities in the delivery of goods,

including non-consulting services, and simple infrastructure projects, subject to the Community Participation Procurement Manual (CPPM) issued by the GPPB.^(a)

- 53.13. ***United Nations Agencies, International Organizations or International Financing Institutions.*** Procurement from specialized agencies of the United Nations, International Organizations or International Financing Institutions, of any of the following: (a) small quantities of off-the-shelf goods, primarily in the fields of education and health; (b) specialized products where the number of suppliers is limited, such as but not limited to vaccines or drugs; or (c) Goods, Infrastructure Projects and Consulting Services, involving advanced technologies, techniques and innovations not locally available as certified by the HoPE, when it is most advantageous to the government.^(a)

Section 54. Terms and Conditions for the use of Alternative Methods

- 54.1. Splitting of Government Contracts is not allowed. Splitting of Government Contracts means the division or breaking up of GoP contracts into smaller quantities and amounts, or dividing contract implementation into artificial phases or sub-contracts for the purpose of evading or circumventing the requirements of law and this IRR, particularly the necessity of competitive bidding and the requirements for the alternative methods of procurement.

For Infrastructure Projects to be implemented by phases, the Procuring Entity shall ensure that there is a clear delineation of work for each phase, which must be usable and structurally sound. It shall also ensure the conduct of the detailed engineering activities for each phase as provided for in Annex "A" of this IRR.^(a)

- 54.2. For alternative methods of procurement, the Procuring Entity may dispense with the advertisement in the newspaper and posting requirement as prescribed in Section 21.2.1 of this IRR.

For the following modalities, however, the BAC, through its Secretariat, shall post the invitation or request for submission of price quotations/proposals in the PhilGEPS website, the website of the Procuring Entity concerned, if available, and at any conspicuous place reserved for this purpose in the premises of the Procuring Entity for a period of at least three (3) calendar days:

1. Section 49 Limited Source Bidding;
 2. Section 52.1(b) Shopping for ordinary office supplies and equipment not available in DBM-PS (for ABC above Fifty Thousand Pesos (50,000.00));
 3. Section 53.1 Two Failed Biddings;
 4. Section 53.9 Small Value Procurement (For ABC above Fifty Thousand Pesos (50,000.00)); and
 5. Section 53.11 NGO Participation.^(a)
- 54.3. In all instances of alternative methods of procurement, the BAC, through the Secretariat, shall post, for information purposes, the notice of award, contract or purchase order, including notice to proceed if necessary, in the PhilGEPS website, the website of the Procuring Entity concerned, if available, and at any conspicuous place

reserved for this purpose in the premises of the Procuring Entity, except for contracts with ABC of Fifty Thousand Pesos (50,000.00) and below.^(a)

ANNEX "A"
**DETAILED ENGINEERING FOR THE PROCUREMENT OF
INFRASTRUCTURE PROJECTS**

1. Detailed engineering shall proceed only on the basis of the feasibility or preliminary engineering study made which establishes the technical viability of the project and conformance to land use and zoning guidelines prescribed by existing laws. The findings contained in the feasibility study, if undertaken for the project, shall be examined. If, in the course of this exercise, it is found that changes would be desirable in the design standards of principal features, as proposed, specific recommendations for such changes shall be supported by detailed justifications, including their effects on the cost, and (if necessary) the economic justification.
2. A schedule of detailed engineering activities shall include the following:
 - a) Survey
 - b) Site Investigation
 - c) Soils and Foundation Investigation
 - d) Construction Materials Investigation
 - e) Preparation of Design Plans
 - f) Preparation of Technical Specifications
 - g) Preparation of Quantity and Cost Estimates
 - h) Preparation of Program of Work
 - i) Preparation of Proposed Construction Schedule (and estimated Cash Flow for projects with Schedule over Six (6) Months)
 - j) Preparation of Site or Right-of-Way Plans including Schedule of Acquisition
 - k) Preparation of Utility Relocation Plan
 - l) Preparation and Submission of Design Report
 - m) Environmental Impact Statement for critical project as defined by the Department of Environment and Natural Resources (DENR)
 - n) Preparation of minimum requirements for a Construction Safety and Health Program for the project being considered
 - o) Value Engineering Studies
 - p) Preparation of Bid/Tender Documents_(a)
3. Work under detailed engineering shall include, but not necessarily be limited to, the following:
 - a) Design Standards – Design standards shall be in accordance with appropriate standards and accepted detailed engineering practice adopted by the agency concerned. Design standards for structures shall take into account, among other things, the seismicity of the area to determine the optimum safety of structures and to minimize possible earthquake damage.
 - b) Field Surveys And Investigations – Necessary field surveys and investigations which may include aerial, hydrographic, topographic, hydrologic, sub-surface, monumenting and other surveys shall be carried out in accordance with the design guidelines, criteria and standards adopted by the agency concerned. All survey and investigation works shall be prepared in a manner satisfactory to carry out accurate design and production of plans that will permit quantity estimates to be made within plus or minus ten percent (10%) of the final quantities of the completed structure.

- c) Contract Plans – The following plans shall be prepared for each construction contract in accordance with guidelines and standards adopted by the procuring entity concerned, incorporating at least the following:
- i) Site development plan
 - ii) Plans and profile sheet
 - iii) Typical sections and details
 - iv) Drainage details where applicable
 - v) Structural plans at appropriate scales indicating all details necessary in order that the complete structure can be set out and constructed
 - vi) Other details which may be required by the head of the agency
- d) Quantities – All construction quantities shall be computed to a reasonable accuracy of not more than plus or minus ten percent (10%) of the final quantities of the as-built structure.
- e) Special Provisions – Specifications shall be prepared for specific terms of work or methods of construction, measurement and payment under each contract, which are not covered by Standard Construction and Material Specifications adopted by the procuring entity concerned.
- f) Unit Prices – These shall be prepared for each contract using costs based on reasonable approved current prices as projected over the proposed construction period, divided into local and foreign exchange costs, as the case may be.
- g) Approved Budget for the Contract – the ABC to be bid shall be prepared by official(s) duly designated by the Head of the Procuring Entity concerned or by his duly authorized official. It shall be approved by the Head of the Procuring Entity or his duly designated official.

Since the contracts are fixed price contracts, the ABC to be bid shall provide for the projected movements of construction costs over the construction period considering the projected inflation and foreign exchange rates as issued by the Development Budget Coordination Committee (DBCC). It shall also show the local and foreign currency requirements, as the case may be.

The ABC to be bid shall specify for each major work item, such as earthwork, roadwork, and massive concreting, the components for equipment rentals, fuel, labor, materials and overhead, including the cost of the approved construction safety and health program and warranty premium.

- h) Bidding Documents – These shall be prepared as provided for in the IRR.
- i) Program of Work – Before prosecuting any project, the necessary program of work shall be prepared and submitted for approval. In no case shall construction funds be remitted to field offices or construction work on a project be started before the program of work is approved, in accordance with existing laws.

No program of work for any project shall be approved without detailed engineering.

The program of work shall include, among other things, estimates of the work, items, quantities and costs and a PERT/CPM network of the project activities. The program of work shall cover at least a usable portion of the project and no

construction shall be started for portions of the project that are less than usable, except projects requiring stage construction, in which case continuity of construction up to the completion of a usable portion must be assured.

- j) Contract Time or Duration – In the preparation of the Bidding Documents, the agency shall make an estimate of the actual number of working days required to complete the project through PERT/CPM analysis of the project activities and corrected for holidays and weekends. Likewise, the agency shall make an estimate of the number of rainy/unworkable days considered unfavorable for the prosecution of the works at the site, based on the records of the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA), and incorporate the same in the corrected actual number of working days determined above, which shall be made the basis of the total contract time. The estimated number of rainy/unworkable days considered unfavorable for the prosecution of the works at the site shall be made known before the date of bidding through the Instructions to Bidders for the purpose of guiding the contractor in preparing his bid and as reference to both the GOP and winning contractors taking action on the requests for time extensions. Without the estimated number of rainy/unworkable days established before the bidding date and made known to all participating bidders, the contract time is presumed to have excluded the unfavorable conditions.
 - k) Warranty Period – Likewise, the Bidding Documents shall specify the type of project and the corresponding warranty period required by the procuring entity.
 - l) Value Engineering – For major projects as specified by the agency, value engineering shall be conducted according to accepted standards and practices. Value engineering shall analyze alternative schemes of achieving the projects objectives in order to delete or reduce non-essential features and lessen the life cycle costs of the projects without sacrificing the quality and integrity of the structure, while maintaining its essential function, performance, and safety.
 - m) Site or Right-of-Way Acquisition Plans and Resettlement Action Plans – These shall be prepared based on parcellary surveys and socio-economic surveys of households affected by the project.
- 4. For projects to be implemented by phases, the Procuring Entity shall ensure that there is a clear delineation of work for each phase, which must be usable, and structurally sound. It shall also ensure the conduct of the detailed engineering activities for each phase as provided for in Item 2 of this Guidelines.⁽ⁿ⁾
 - 5. As a requirement for the procurement of infrastructure works, the concerned consultants/government officials who prepared and approved the detailed engineering shall issue a certification that the detailed engineering surveys and designs have been conducted according to the prescribed agency standards and specifications in conformance with the provisions of this Annex, and that the detailed engineering outputs are adequate for the procurement at hand. The approval by the authorized government officials of detailed engineering surveys and designs undertaken by consultants neither diminishes the responsibility of the latter for the technical integrity of the surveys and designs nor transfer any part of that responsibility to the approving officials.
 - 6. The above rules shall apply to the implementation of infrastructure projects under normal or ordinary conditions. However, under emergency or extraordinary cases

involving major calamities and disasters as declared by the President where time is of the essence to save lives and properties and restore damaged infrastructures, detailed engineering works shall be conducted in accordance with the guidelines and procedures, as prescribed by the head of the appropriate infrastructure agency and approved by the Infrastructure Committee of the National Economic and Development Authority Board, to enable quick response to said cases, while maintaining the safety and integrity of the structure.

ANNEX "B"

GENERAL PRINCIPLES ON CONSULTING SERVICES

1. Definition

A natural or juridical person, qualified by appropriate education, training and relevant experience to render any or all of the types and fields of consulting services as defined in this IRR, shall be considered as a "Consultant," subject to the requirements provided in this IRR for eligibility check and post-qualification.

2. The Need for Consultants

The services of consultants may be engaged by any procuring entity for government projects or related activities of such magnitude and/or scope as would require a level of expertise or attention beyond the optimum in-house capability of the procuring entity concerned and consistent with the Government's policy not to compete with the private sector.

3. Independence of Consultants

To ensure the consultant's professional independence, integrity, and objectivity, consultants, as well as key staff working for the consulting entity, who may be directly or indirectly associated with non-consulting firms that may have an interest in or bias towards the project concerned, shall be selected only if they agree to limit their role to that of consultants and will disqualify themselves and their affiliates for bidding for products and services of the same government project.

4. Hiring of Consultants

- 4.1. Consultants shall be hired on the basis of their proven expertise, experience and capability. Under certain conditions provided herein, cost may be included as a factor in the selection of consultants.
- 4.2. In order to manifest trust and confidence in and promote the development of Filipino consultancy, Filipino consultants shall be hired whenever the services required for the project are within the expertise and capability of Filipino consultants: *Provided, however,* That in the event Filipino consultants do not have the sufficient expertise and capability to render the services required under the project, as determined by the Head of the Procuring Entity, foreign consultants may be hired.
- 4.3. In the hiring of foreign consultants, all pertinent laws and regulations of the Philippines shall be followed.
- 4.4. Technology and knowledge transfer to the procuring entity shall be required in the provision of consulting services, where applicable.

5. Organization of Consultants

- 5.1. The umbrella organization of consultants recognized by the Government shall be composed of the various organizations of consultants that may be engaged by the Government under this IRR and shall accredit its members on the types of services and fields of professions where the members are technically and financially qualified to offer their services. The umbrella organization shall prepare and certify a list of fields and expertise in such fields available with the names of the accredited local consultants which shall be updated annually or as often as necessary and disseminate such list to concerned agencies of the Government. It shall likewise regulate its members for the development of the industry. The Government may consult and deal with this umbrella organization on matters relating to the industry. The GPPB shall be the appropriate government body that shall recognize the consultants' umbrella organization.
- 5.2. The umbrella organization may submit its files of accredited consultants to the BAC of the procuring entity in accordance with the form prescribed by the BAC which can serve as registration of the consultants under the next succeeding Subsection: *Provided, however,* That each such accredited consultant shall comply with the eligibility requirements provided in this IRR. Such qualification statements, together with the list of accredited consultants prepared in accordance with the immediately preceding section, shall guide the BAC in determining the fields where Filipino consultants are already qualified and capable and where foreign consultants may not be required.

CONTRACT IMPLEMENTATION GUIDELINES FOR THE PROCUREMENT OF GOODS, SUPPLIES AND MATERIALS

1. Amendment to Order

- 1.1. Subject to the conditions set forth below, amendments to order may be issued at any time by the procuring entity concerned. If any such order increases or decreases the cost of, or the time required for executing any part of the work under the original contract, an equitable adjustment in contract price and/or delivery schedule shall be mutually agreed upon between the parties concerned, and the contract modified in writing.
- 1.2. An amendment to order may be issued only in emergency cases or during fortuitous events requiring necessary adjustments within the general scope of the contract in any one or more of the following is required in order to fully meet the requirements of the project:
 - a) drawings, design or specifications, if the goods to be furnished are to be specifically manufactured for the Government in accordance therewith;
 - b) method of shipment or packing; or
 - c) place of delivery.
- 1.3. An amendment to order may also be issued by the concerned procuring entity where there are additional items needed and necessary for the protection of the goods, which were not included in the original contract. Payments for these additional items shall be based on the unit prices in the original contract for items of goods similar to those in the original contract. If the contract does not contain any rate applicable to the additional items, then suitable prices shall mutually be agreed upon between the parties. Request for payment by the supplier for any additional items shall be accompanied by a statement with the approved supporting forms, giving a detailed accounting and record of amount for which it claims payment. The contract time shall likewise be extended if the acquisition of such additional items so warrants.
- 1.4. Under no circumstances shall a supplier proceed to commence work under any amendment to order unless the same has been approved by the Head of the Procuring Entity concerned or his duly authorized representative. As an exception to the rule, the Regional Director/Head concerned may authorize the immediate start of work under any amendment to order in the event of emergencies to avoid detriment to public service, or damage to life and/or property or when time is of the essence: Provided, however, That the same is valid only on items up to the point where the cumulative increase in the contract cost which has not yet been duly fully approved by the Head of the Procuring Entity concerned or his duly authorized representative does not exceed five percent (5%) of the original contract cost: Provided, further, That the corresponding amendment to order shall immediately be prepared and submitted for approval to the Head of the Procuring Entity concerned or his duly authorized representative. For an amendment to order involving a cumulative amount exceeding five percent (5%) of the original contract price, no work thereon shall be commenced

unless the same has been approved by the Head of Procuring Entity concerned or his duly authorized representative: *Provided, That*, the said cumulative amount does not exceed ten percent (10%) of the original contract price.

2. Suspension of Work

- 2.1. The procuring entity may suspend the work wholly or partly by written order for a certain period of time, as it deems necessary due to force majeure or any fortuitous events as defined in the contract. The supplier shall take all reasonable steps to minimize the costs allocable to the work covered by such order during work stoppage.
- 2.2. Before the suspension order expires, the procuring entity concerned shall either lift such order or terminate the work covered by the same. If the suspension order is lifted, or if the period of the order expires, the supplier shall have the right to resume work. Appropriate adjustments shall be made in the delivery or contract schedule, or contract price, or both, and the contract shall be modified accordingly.

3. Liquidated Damages

- 3.1. When the supplier fails to satisfactorily deliver goods under the contract within the specified delivery schedule, inclusive of duly granted time extensions, if any, the supplier shall be liable for damages for the delay and shall pay the procuring entity liquidated damages, not by way of penalty, an amount equal to one-tenth (1/10) of one percent (1%) of the cost of the delayed goods scheduled for delivery for every day of delay until such goods are finally delivered and accepted by the procuring entity concerned.
- 3.2. The procuring entity need not prove that it has incurred actual damages to be entitled to liquidated damages. Such amount shall be deducted from any money due or which may become due to the supplier, or collected from any securities or warranties posted by the supplier, whichever is convenient to the procuring entity concerned. In no case shall the total sum of liquidated damages exceed ten percent (10%) of the total contract price, in which event the procuring entity concerned may rescind the contract and impose appropriate sanctions over and above the liquidated damages to be paid.

4. Advance Payment

- 4.1. In accordance with Presidential Decree 1445, advance payment shall be made only after prior approval of the President, and shall not exceed fifteen percent (15%) of the contract amount, unless otherwise directed by the President; *Provided, however*, that for cases mentioned under 4.3, 4.4, and 4.5 of these guidelines, no prior approval by the President shall be necessary.
- 4.2. All progress payments shall first be charged against the advance payment until the latter has been fully exhausted, unless otherwise approved by the President.
- 4.3. A single advance payment not to exceed fifty percent (50%) of the contract amount shall be allowed for contracts entered into by a procuring entity for the following services where requirement of down payment is a standard industry practice:
 - a) Hotel and restaurant services;
 - b) Use of conference/seminar and exhibit areas; and

- c) Lease of office space.
- 4.4. Advance payment not to exceed fifteen percent (15%) of the contract amount, unless otherwise directed by the President, shall also be allowed for procurement of goods required to address contingencies arising from natural or man-made calamities in areas where a "State of Calamity" has been declared by appropriate authorities.
- 4.5. Upon submission of an irrevocable letter of credit or bank guarantee issued by a Universal or Commercial Bank, advance payment not to exceed fifteen percent (15%) of the contract amount shall be allowed and paid within sixty (60) calendar days from signing of the contract. The irrevocable letter of credit or bank guarantee must be for an equivalent amount, shall remain valid until the goods are delivered, and accompanied by a claim for advance payment.

ANNEX "E"

CONTRACT IMPLEMENTATION GUIDELINES FOR THE PROCUREMENT OF INFRASTRUCTURE PROJECTS

1. VARIATION ORDERS - CHANGE ORDER/EXTRA WORK ORDER

- 1.1. Variation Orders may be issued by the procuring entity to cover any increase/decrease in quantities, including the introduction of new work items that are not included in the original contract or reclassification of work items that are either due to change of plans, design or alignment to suit actual field conditions resulting in disparity between the preconstruction plans used for purposes of bidding and the "as staked plans" or construction drawings prepared after a joint survey by the contractor and the Government after award of the contract, provided that the cumulative amount of the positive or additive Variation Order does not exceed ten percent (10%) of the original contract price. The addition/deletion of works under Variation Orders should be within the general scope of the project as bid and awarded. The scope of works shall not be reduced so as to accommodate a positive Variation Order. A Variation Order may either be in the form of either a change order or extra work order.
- 1.2. A Change Order may be issued by the implementing official to cover any increase/decrease in quantities of original work items in the contract.
- 1.3. An Extra Work Order may be issued by the implementing official to cover the introduction of new work necessary for the completion, improvement or protection of the project which was not included as items of work in the original contract, such as, where there are subsurface or latent physical conditions at the site differing materially from those indicated in the contract, or where there are duly unknown physical conditions at the site of an unusual nature differing materially from those ordinarily encountered and generally recognized as inherent in the work or character provided for in the contract.
- 1.4. Any cumulative positive Variation Order beyond ten percent (10%) of the original contract price shall be subject of another contract to be bid out if the works are separable from the original contract. In exceptional cases where it is urgently necessary to complete the original scope of work, the Head of the Procuring Entity may authorize a positive variation order that will make the cumulative value of the positive Variation Orders go beyond ten percent (10%) but not more than twenty percent (20%) of the original contract price, subject to the guidelines to be determined by the GPPB: Provided, however, That appropriate sanctions shall be imposed on the designer, consultant or official responsible for the original detailed engineering design which failed to consider the Variation Order beyond ten percent (10%).
- 1.5. In claiming for any Variation Order, the contractor shall, within seven (7) calendar days after such work has been commenced pursuant to Item 3.2 hereof; or, within twenty eight (28) calendar days after the circumstances or reasons justifying a claim for extra cost shall have occurred, deliver a notice giving full and detailed particulars of any extra cost in order that it may be investigated at that time. Failure to provide either of such notices in the time stipulated shall constitute a waiver by the contractor for any claim. The preparation and submission of Variation Orders are as follows:

- a) If the procuring entity's representative/Project Engineer believes that a Change Order or Extra Work Order should be issued, he shall prepare the proposed Order accompanied with the notices submitted by the contractor, the plans therefore, his computations as to the quantities of the additional works involved per item indicating the specific stations where such works are needed, the date of his inspections and investigations thereon, and the log book thereof, and a detailed estimate of the unit cost of such items of work, together with his justifications for the need of such Change Order or Extra Work Order, and shall submit the same to the Head of the Procuring Entity for approval.
- b) The Head of the Procuring Entity or his duly authorized representative upon receipt of the proposed Change Order or Extra Work Order shall immediately instruct the appropriate technical staff or office of the procuring entity to conduct an on-the-spot investigation to verify the need for the work to be prosecuted and to review the proposed plan, and prices of the work involved.
- c) The technical staff of appropriate office of the procuring entity shall submit a report of their findings and recommendations, together with the supporting documents, to the Head of the Procuring Entity or his duly authorized representative for consideration.
- d) The Head of the Procuring Entity or his duly authorized representative, acting upon the recommendation of the technical staff or appropriate office, shall approve the Change Order or Extra Work Order after being satisfied that the same is justified, necessary, and in order.
- e) The timeframe for the processing of Variation Orders from the preparation up to the approval by the procuring entity concerned shall not exceed thirty (30) calendar days.

2. ADDITIONAL/EXTRA WORK COSTING

- 2.1. For Variation Orders, the contractor shall be paid for additional work items whose unit prices shall be derived based on the following:
 - a. For additional/extra works duly covered by Change Orders involving work items which are exactly the same or similar to those in the original contract, the applicable unit prices of work items original contract shall be used.
 - b. For additional/extra works duly covered by Extra Work Orders involving new work items that are not in the original contract, the unit prices of the new work items shall be based on the direct unit costs used in the original contract (*e.g.*, unit cost of cement, rebars, form lumber, labor rate, equipment rental, etc.). All new components of the new work item shall be fixed prices, provided the same is acceptable to both the Government and the contractor, and provided further that the direct unit costs of new components shall be based on the contractor's estimate as validated by the procuring entity concerned via documented canvass in accordance with existing rules and regulations. The direct cost of the new work item shall then be combined with the mark-up factor (*i.e.*, taxes and profit) used by the contractor in his bid to determine the unit price of the new work item.

- 2.2. Request for payment by the contractor for any extra work shall be accompanied by a statement, with the approved supporting forms, giving a detailed accounting and record of amount for which he claims payment. Said request for payment shall be included with the contractor's statement for progress payment.

3. CONDITIONS UNDER WHICH CONTRACTOR IS TO START WORK UNDER VARIATION ORDERS AND RECEIVE PAYMENTS

- 3.1. Under no circumstances shall a contractor proceed to commence work under any Change Order or Extra Work Order unless it has been approved by the Head of the Procuring Entity or his duly authorized representative.
- 3.2. However, under any of the following conditions, the procuring entity's representative/Project Engineer may, subject to the availability of funds and within the limits of his delegated authority, allow the immediate start of work under any Change Order or Extra Work Order:
 - i) In the event of an emergency where the prosecution of the work is urgent to avoid detriment to public service, or damage to life and/or property; and/or
 - ii) When time is of the essence;

Provided, however, That such approval is valid on work done up to the point where the cumulative increase in value of work on the project which has not yet been duly fully approved does not exceed five percent (5%) of the adjusted original contract price;

Provided, further, That immediately after the start of work, the corresponding Change Order or Extra Work Order shall be prepared and submitted for approval in accordance with the above rules herein set. Payments for works satisfactorily accomplished on any Change Order or Extra Work Order may be made only after approval of the same by the Head of the Procuring Entity or his duly authorized representative.

Provided, finally, That for a Change Order or Extra Work Order involving a cumulative amount exceeding five percent (5%) of the original contract price, no work thereon may be commenced unless said Change Order or Extra Work Order has been approved by the Head of the Procuring Entity or his duly authorized representative.

4. ADVANCE PAYMENT

- 4.1. The procuring entity shall, upon a written request of the contractor which shall be submitted as a contract document, make an advance payment to the contractor in an amount not exceeding fifteen percent (15%) of the total contract price, to be made in lump sum or, at the most, two installments according to a schedule specified in the Instructions to Bidders and other relevant Tender Documents.
- 4.2. The advance payment shall be made only upon the submission to and acceptance by the procuring entity of an irrevocable standby letter of credit of equivalent value from a commercial bank, a bank guarantee or a surety bond callable upon demand, issued by a surety or insurance company duly licensed by the Insurance Commission and confirmed by the procuring entity.

- 4.3. The advance payment shall be repaid by the contractor by deducting fifteen percent (15%) from his periodic progress payments a percentage equal to the percentage of the total contract price used for the advance payment.
- 4.4. The contractor may reduce his standby letter of credit or guarantee instrument by the amounts refunded by the Monthly Certificates in the advance payment.

5. PROGRESS PAYMENT

- 5.1. Once a month, the contractor may submit a statement of work accomplished (SWA) or progress billing and corresponding request for progress payment for work accomplished. The SWA should show the amounts which the contractor considers itself to be entitled to up to the end of the month, to cover (a) the cumulative value of the works it executed to date, based on the items in the Bill of Quantities, and (b) adjustments made for approved variation orders executed.
- 5.2. The procuring entity's representative/project engineer shall check the contractor's monthly SWA and certify the amount to be paid to the contractor as progress payment. Except as otherwise stipulated in the Instruction to Bidders, materials and equipment delivered on the site but not completely put in place shall not be included for payment.
- 5.3. The procuring entity shall deduct the following from the certified gross amounts to be paid to the contractor as progress payment:
 - a) Cumulative value of the work previously certified and paid for.
 - b) Portion of the advance payment to be recouped for the month.
 - c) Retention money in accordance with the condition of contract.
 - d) Amount to cover third party liabilities.
 - e) Amount to cover uncorrected discovered defects in the works.

6. RETENTION MONEY

- 6.1. Progress payments are subject to retention of ten percent (10%) referred to as the "retention money." Such retention shall be based on the total amount due to the contractor prior to any deduction and shall be retained from every progress payment until fifty percent (50%) of the value of works, as determined by the procuring entity, are completed. If, after fifty percent (50%) completion, the work is satisfactorily done and on schedule, no additional retention shall be made; otherwise, the ten percent (10%) retention shall be imposed.
- 6.2. The total "retention money" shall be due for release upon final acceptance of the works. The contractor may, however, request the substitution of the retention money for each progress billing with irrevocable standby letters of credit of from a commercial bank, bank guarantees or surety bonds callable on demand, of amounts equivalent to the retention money substituted for and acceptable to Government, provided that the project is on schedule and is satisfactorily undertaken. Otherwise, the ten percent (10%) retention shall be made. Said irrevocable standby letters of credit, bank guarantees and/or surety bonds, to be posted in favor of the Government shall be valid for a duration to be determined by the concerned implementing office/agency or procuring entity and will answer for the purpose for which the ten percent (10%) retention is intended, i.e., to cover uncorrected discovered defects and third party liabilities.

7. CONTRACT COMPLETION

Once the project reaches an accomplishment of ninety five (95%) of the total contract amount, the procuring entity may create an inspectorate team to make preliminary inspection and submit a punch-list to the contractor in preparation for the final turnover of the project. Said punch-list will contain, among others, the remaining works, work deficiencies for necessary corrections, and the specific duration/time to fully complete the project considering the approved remaining contract time. This, however, shall not preclude the procuring entity's claim for liquidated damages.

8. LIQUIDATED DAMAGES

- 8.1. Where the contractor refuses or fails to satisfactorily complete the work within the specified contract time, plus any time extension duly granted and is hereby in default under the contract, the contractor shall pay the procuring entity for liquidated damages, and not by way of penalty, an amount, as provided in the conditions of contract, equal to at least one tenth (1/10) of one (1) percent of the cost of the unperformed portion of the works for every day of delay.
- 8.2. A project or a portion thereof may be deemed usable when it starts to provide the desired benefits as certified by the targeted end-users and the concerned procuring entity.
- 8.3. To be entitled to such liquidated damages, the procuring entity does not have to prove that it has incurred actual damages. Such amount shall be deducted from any money due or which may become due the contractor under the contract and/or collect such liquidated damages from the retention money or other securities posted by the contractor whichever is convenient to the procuring entity.
- 8.4. In case that the delay in the completion of the work exceeds a time duration equivalent to ten percent (10%) of the specified contract time plus any time extension duly granted to the contractor, the procuring entity concerned may rescind the contract, forfeit the contractor's performance security and takeover the prosecution of the project or award the same to a qualified contractor through negotiated contract.
- 8.5. In no case however, shall the total sum of liquidated damages exceed ten percent (10%) of the total contract price, in which event the contract shall automatically be taken over by the procuring entity concerned or award the same to a qualified contractor through negotiation and the erring contractor's performance security shall be forfeited. The amount of the forfeited performance security shall be aside from the amount of the liquidated damages that the contractor shall pay the government under the provisions of this clause and impose other appropriate sanctions.
- 8.6. For terminated contracts where negotiation shall be undertaken, the procedures prescribed in the IRR shall be adopted.

9. SUSPENSION OF WORK

- 9.1. The procuring entity shall have the authority to suspend the work wholly or partly by written order for such period as may be deemed necessary, due to force majeure or any fortuitous events or for failure on the part of the contractor to correct bad conditions which are unsafe for workers or for the general public, to carry out valid orders given by the procuring entity or to perform any provisions of the contract, or

due to adjustment of plans to suit field conditions as found necessary during construction. The contractor shall immediately comply with such order to suspend the work wholly or partly.

- 9.2. The contractor or its duly authorized representative shall have the right to suspend work operation on any or all projects/activities along the critical path of activities after fifteen (15) calendar days from date of receipt of written notice from the contractor to the district engineer/regional director/consultant or equivalent official, as the case may be, due to the following:
- a. There exist right-of-way problems which prohibit the contractor from performing work in accordance with the approved construction schedule.
 - b. Requisite construction plans which must be owner-furnished are not issued to the contractor precluding any work called for by such plans.
 - c. Peace and order conditions make it extremely dangerous, if not possible, to work. However, this condition must be certified in writing by the Philippine National Police (PNP) station which has responsibility over the affected area and confirmed by the Department of Interior and Local Government (DILG) Regional Director.
 - d. There is failure on the part of the procuring entity to deliver government-furnished materials and equipment as stipulated in the contract.
 - e. Delay in the payment of contractor's claim for progress billing beyond forty-five (45) calendar days from the time the contractor's claim has been certified to by the procuring entity's authorized representative that the documents are complete unless there are justifiable reasons thereof which shall be communicated in writing to the contractor.
- 9.3. In case of total suspension, or suspension of activities along the critical path, which is not due to any fault of the contractor, the elapsed time between the effective order of suspending operation and the order to resume work shall be allowed the contractor by adjusting the contract time accordingly.

10. EXTENSION OF CONTRACT TIME

- 10.1. Should the amount of additional work of any kind or other special circumstances of any kind whatsoever occur such as to fairly entitle the contractor to an extension of contract time, the procuring entity shall determine the amount of such extension; provided that the procuring entity is not bound to take into account any claim for an extension of time unless the contractor has, prior to the expiration of the contract time and within thirty (30) calendar days after such work has been commenced or after the circumstances leading to such claim have arisen, delivered to the procuring entity notices in order that it could have investigated them at that time. Failure to provide such notice shall constitute a waiver by the contractor of any claim. Upon receipt of full and detailed particulars, the procuring entity shall examine the facts and extent of the delay and shall extend the contract time completing the contract work when, in the procuring entity's opinion, the findings of facts justify an extension.

- 10.2. No extension of contract time shall be granted the contractor due to (a) ordinary unfavorable weather conditions and (b) inexcusable failure or negligence of contractor to provide the required equipment, supplies or materials.
- 10.3. Extension of contract time may be granted only when the affected activities fall within the critical path of the PERT/CPM network.
- 10.4. No extension of contract time shall be granted when the reason given to support the request for extension was already considered in the determination of the original contract time during the conduct of detailed engineering and in the preparation of the contract documents as agreed upon by the parties before contract perfection.
- 10.5. Extension of contract time shall be granted for rainy/unworkable days considered unfavorable for the prosecution of the works at the site, based on the actual conditions obtained at the site, in excess of the number of rainy/unworkable days pre-determined by the government in relation to the original contract time during the conduct of detailed engineering and in the preparation of the contract documents as agreed upon by the parties before contract perfection, and/or for equivalent period of delay due to major calamities such as exceptionally destructive typhoons, floods and earthquakes, and epidemics, and for causes such as non-delivery on time of materials, working drawings, or written information to be furnished by the procuring entity, non-acquisition of permit to enter private properties within the right-of-way resulting in complete paralyzation of construction activities, and other meritorious causes as determined by the Government's authorized Engineer and approved by the procuring entity. Shortage of construction materials, general labor strikes, and peace and order problems that disrupt construction operations through no fault of the contractor may be considered as additional grounds for extension of contract time provided they are publicly felt and certified by appropriate government agencies such as DTI, DOLE, DILG, and DND, among others. The written consent of bondsmen must be attached to any request of the contractor for extension of contract time and submitted to the procuring entity for consideration and the validity of the performance security shall be correspondingly extended.

11. ACCREDITATION OF TESTING LABORATORIES

- 11.1. To help ensure the quality of materials being used in infrastructure projects, the Bureau of Research and Standards (BRS) of the DPWH, Department of Science and Technology (DOST), or Department of Trade and Industry (DTI) shall accredit, in accordance with industry guidelines, the testing laboratories whose services are engaged or to be engaged in infrastructure projects. All government infrastructure project owners must accept results of material test(s) coming only from DOST/BRS accredited laboratories.

12. EVALUATION OF CONTRACTORS PERFORMANCE

12.1. *Subject and Scope*

All Procuring Entities implementing government infrastructure projects are mandated to evaluate the performance of their contractors using the NEDA-Approved Constructors Performance Evaluation System (CPES) Guidelines for the type of project being implemented. These guidelines cover all infrastructure projects awarded by the government regardless of contract amount and funding source. CPES evaluation shall be done during construction and upon completion of each government project. To

ensure continuous implementation of CPES, all Procuring Entities concerned are required to include in their Projects' Engineering and Administrative Overhead Cost the budget for the implementation of CPES pursuant to NEDA Board Resolution No. 18 (s. 2002).

12.2. Evaluation Guidelines

For project types which do not have specific CPES Guidelines, the Procuring Entities concerned may formulate and adopt their own implementing Guidelines specific to their needs provided the NEDA-INFRACOM poses no objections to their adoption, and provided further that said Guidelines are made known to all prospective bidders.

12.3. Implementation Mechanism for CPES

All Procuring Entities implementing infrastructure projects are required to establish CPES Implementing Units (IUs) in their respective offices/agencies/corporations. The CPES Implementing Units shall be responsible for the implementation of the CPES Implementing guidelines, including but not limited to, the supervision of Constructors Performance Evaluators (CPEs) to be accredited by the Construction Industry Authority of the Philippines (CIAP). The procuring entity's CPES IU shall be responsible for the following: a) pre-screening of applications of CPEs, b) funding for CPEs accreditation training and seminars; and c) yearly evaluation of CPEs.

12.4. Submission and Dissemination of Evaluation Results

All Procuring Entities implementing CPES shall submit the results of their performance evaluation to the CIAP on a monthly basis or as often as necessary. The procuring entity's CPES-IU shall likewise develop and maintain a databank and disseminate the CPES reports to the concerned units/departments within the procuring entity and to other interested users.

12.5. Utilization of Evaluation Results

The CIAP shall consolidate all of the CPES evaluation results received and shall disseminate the same to all Procuring Entities concerned. The CPES rating and other information shall be used by the concerned government agencies for the following purposes: (a) pre qualification/eligibility screening of constructors; (b) awarding of contracts; (c) project monitoring and control; (d) issuance of Certificate of Completion; (e) policy formulation/review; (f) industry planning; (g) granting of Incentives/Awards, and, in adopting measure to further improve performance of contractors in the prosecution of government projects.

13. OTHER RULES AND GUIDELINES

The rules and regulations for the other aspects of contract implementation shall be included in the manuals to be issued by the GPPB, such as, but not limited to, the following:

- a) Sub-contracting;
- b) Interference with Traffic and Adjoining Properties;
- c) Clearance of Project Site of Obstruction;
- d) Inspection and Testing;
- e) Daywork;
- f) Measurement of Works; and

g) Other Implementation Aspects.

ANNEX "F"

CONTRACT IMPLEMENTATION GUIDELINES FOR THE PROCUREMENT OF CONSULTING SERVICES

1. Advance Payment for Mobilization

The Government, as it considers fair and reasonable, may allow advance payment to the Consultant in the amount which shall not exceed fifteen percent (15%) of the contract amount to cover the cost of mobilization, subject to the posting of an irrevocable standby letter of credit issued by an entity acceptable to the agency and of an amount equal to the advance payment. The advance payment shall be repaid by the Consultant by deducting from his progress payments such sum as agreed upon during the contract negotiations until fully liquidated within the duration of the contract.

2. Cost of Consulting Services

All Consultancy contracts shall be fixed price contracts. Any extension of contract time shall not involve any additional cost.

3. Other Rules and Guidelines

The rules and regulations for the other aspects of contract implementation shall be included in the manuals to be issued by the GPPB.

ANNEX "G"

GUIDELINES FOR THE PROCUREMENT AND IMPLEMENTATION OF CONTRACTS FOR DESIGN AND BUILD INFRASTRUCTURE PROJECTS

1. SCOPE AND APPLICATION

These guidelines shall govern the procurement and implementation of contracts for design and build infrastructure projects and shall supplement applicable provisions of Republic Act No. 9184 (RA 9184) and its Revised Implementing Rules and Regulations (IRR) in particular Section 17.6 and Annex E.

2. PURPOSE

These guidelines are formulated to determine the conditions for the use of the design and build scheme for infrastructure projects and the procedures for the implementation thereof.

3. GUIDING PRINCIPLES

The procuring entity, prior to resorting to the design and build scheme, should consider the following advantages and disadvantages of said scheme:

3.1. Advantages:

- a) Since both design and construction are in the hands of the contractor, there is a single point of responsibility for quality, cost, and schedule adherence, including the risks related to design. This precludes buck-passing and finger-pointing between the designer and the builder.
- b) Because design and construction periods can overlap, the total design and construction time, as well as the final project cost, will be significantly reduced.
- c) The procuring entity is assured of quality considering that the larger responsibility implicit in the design-build scheme serves as motivation for high quality of the facility to be provided. Once the requirements of the procuring entity are defined in performance terms, the designer-builder is responsible for producing the results accordingly. The designer-builder warrants to the procuring entity that the design documents are complete and free from error.
- d) The procuring entity does not need to spend much time and money in seeing to it that the work is done by the contractor exactly as indicated by the design documents prepared by the designer, and in coordinating and arbitrating between separate design and construction contracts.

3.2. Disadvantages:

- a) Procuring Entities should, however, take into account that in utilizing the design and build scheme for a particular project, contractors are given too much discretion in determining the project cost and there is difficulty in predicting its final cost until the actual commencement of construction.

This, however, can be addressed by prescribing that the bid/contract price should not exceed the Approved Budget for Contract (ABC) of the procuring entity and that the contract price is a fixed lump sum amount.

- b) Considering that the extent of the integration of design and construction of the project is exceptionally dependent on the contractor, there may be cases when the end-result may not be exactly in accordance with what the procuring entity has required. These cases can be avoided if the procuring entity adequately defines the output or performance specifications and parameters.

4. DEFINITION OF TERMS

- a. **Approved Budget for the Contract (ABC).** This shall be a lump sum amount that shall cover the cost of design and construction works (*at the option of the procuring entity*) based on the conceptual design and performance specifications and in accordance with applicable provisions of the law or agency guidelines. The ABC shall be calculated based on either the approximate quantities of work of the conceptual design, from standardized designs or from cost records of previous projects of similar kind.
- b. **Bidding Documents for Design and Build Scheme.** These shall basically be similar to the Bidding Documents for infrastructure projects and shall also include the performance specifications and parameters to be followed by the design and build contractors and the method for allocation of risks for the design and build contract, among others.
- c. **Conceptual Design.** This shall describe the general idea of the procuring entity with regard to the completed facility and shall identify the scope or physical components and structures, specific outputs and requirements of the structures and proposed methods of construction, where necessary.
- d. **Design and Build Projects.** This refers to infrastructure projects where the procuring entity awards a single contract for the architectural/engineering design and construction to a single firm, partnership, corporation, joint venture or consortium.
- e. **Performance Specifications and Parameters.** The procuring entity shall define the required performance specifications and criteria and its means of measurement based on the operating outputs and in accordance with appropriate design and construction standards, legal and technical obligations and any other relevant government commitments as required by existing laws and regulations. It shall not be drawn up to favor a particular solution, design and construction method.
- f. **Preliminary Investigations.** These shall include, among others, information on soil, geotechnical, hydrologic, hydraulic, seismic, traffic, and environmental conditions that shall be used to define project design criteria, to set the basis for any changed conditions and establish preliminary project cost estimates.
- g. **Preliminary Survey and Mapping.** These shall determine boundaries and provide stationing along control lines to establish feature and design criteria

location, and identify existing and future right-of-way limits and construction easements associated with the procuring entity's conceptual design.

- h. **Project Description.** This shall define the objectives, purpose, limitations or constraints, as well as the allocation of risks between the procuring entity and the winning bidder.
- i. **Utility Locations.** The procuring entity shall provide information on existing utilities in and around the project's area.

5. CONDITIONS FOR THE USE OF THE DESIGN AND BUILD SCHEME

5.1. The Design and Build scheme shall be applied under any of the following cases:

- a. For flagship, priority and fast track projects that need to be completed on a tight completion schedule, as included in the Medium Term Public Investment Program (MTPIP) for national projects and in the Regional Development Investment Plan (RDIP) for regional and provincial projects;
- b. For infrastructure projects requiring advanced engineering or construction technologies or whose intellectual property rights belong to private companies;
- c. For infrastructure projects where design, equipment, plant and construction can be provided exclusively by a company or where manufacturer's know-how is important in the construction of such facility; or
- d. For small projects where there are previously approved drawings or standardized designs and an innovation in design and construction methods under the design and build scheme will result in lower costs and higher quality projects. Examples of these are school buildings, rural health units, among others.

5.2. All design and build projects shall be included in the Annual Procurement Plan (APP) of the procuring entity concerned and shall be subject to prior approval by the Head of the Procuring Entity or his/her duly authorized representative.

6. CREATION OF DESIGN and BUILD COMMITTEE

The procuring entity may create a Design and Build Committee (DBC) composed of highly technical personnel experienced in the field of architecture, engineering and construction in the particular type of project to be bid. The DBC shall assist the project management office (PMO) in the preparation of the conceptual design and performance specifications and parameters, review of detailed engineering design and supervision of the project. It shall, likewise, assist the Bids and Awards Committee (BAC) and the Technical Working Group (TWG) in the evaluation of technical proposals in accordance with the criteria set in the Bidding Documents.

7. PRELIMINARY DESIGN AND CONSTRUCTION STUDIES

No bidding and award of design and build contracts shall be made unless the required preliminary design and construction studies have been sufficiently carried out and duly approved by the Head of the Procuring Entity that shall include, among others, the following:

- i. Project Description
- ii. Conceptual Design
- iii. Performance Specifications and Parameters
- iv. Preliminary Survey and Mapping
- v. Preliminary Investigations
- vi. Utility Locations
- vii. Approved Budget for the Contract
- viii. Proposed Design and Construction Schedule
- ix. Minimum requirements for a Construction Safety and Health Program for the project being considered
- x. Tender/Bidding Documents, including Instructions to Bidders and Conditions of Contract

The above data are for reference only. The procuring entity does not guarantee that these data are fully correct, up to date, and applicable to the project at hand. The contractor is responsible for the accuracy and applicability of all data, including the above, that it will use in its design and build proposal and services.

The acquisition of right-of-way and the conduct of eminent domain proceedings shall still be the responsibility of the procuring entity, which shall include a preliminary budget for this purpose.

8. DETAILED ENGINEERING REQUIREMENTS

- 8.1. Upon award of the design and build contract, the winning bidder shall be responsible for the preparation and submission of all necessary detailed engineering investigations, surveys and designs in accordance with the provisions of Annex "A" of this IRR (with the exception of the Bidding Documents and the ABC).
- 8.2. The procuring entity shall ensure that all the necessary schedules with regard to the submission, confirmation and approval of the detailed engineering design and the details of the construction methods and procedures shall be included in the contract documents.
- 8.3. The procuring entity shall review, order rectification, and approve or disapprove – for implementation only - the submitted plans within these schedules. All instructions for rectification shall be in writing stating the reasons for such rectification. The design and build contractor shall be solely responsible for the integrity of the detailed engineering design and the performance of the structure irrespective of the approval/confirmation by the procuring entity.

9. ELIGIBILITY REQUIREMENTS

- 9.1. The eligibility requirements for Design and Build infrastructure projects shall comply with the applicable provisions of Sections 23 to 24 of IRR.

9.2. A modified set of requirements integrating eligibility documents and criteria for infrastructure projects and consulting services shall be adopted, as follows:

i. Class "A" Documents (Legal, Technical and Financial Documents) and Class "B" Documents

The prospective bidder shall submit all the required Class "A" and Class "B" documents for infrastructure projects and the following:

- a) relevant statements of all on-going, completed, awarded but not yet started design/design and build related contracts, curriculum vitae of key staff, partners or principal officers; and
- b) valid licenses issued by the Professional Regulatory Commission (PRC) for design professionals.^(a)

ii. Eligibility Criteria

- a) The eligibility of design and build contractors shall be based on the legal, technical and financial requirements abovementioned. In the technical requirements, the design and build contractor (as solo or in joint venture/consortia) should be able to comply with the experience requirement under the IRR of R.A. 9184, where one of the parties (in a joint venture/consortia) should have at least one similar project, both in design and construction, with at least 50% of the cost of the ABC.
- b) If the bidder has no experience in design and build projects on its own it may enter into subcontracting, partnerships, or joint venture with design or engineering firms for the design portion of the contract.
- c) The relevant provisions under Section 23.4.2 of the IRR of R.A. 9184 on eligibility requirements shall be observed, with the following exceptions:

Joint ventures/consortia among Filipino contractors and consultants or among Filipino contractors and foreign consultants shall be allowed subject to pertinent laws and the relevant provisions of the IRR of R.A. 9184. The joint venture/consortia shall be jointly and severally responsible for the obligations and the civil liabilities arising from the design and build contract: *Provided, however,* That Filipino ownership or interest thereof shall be at least seventy five percent (75%): *Provided further,* That joint ventures/consortia in which Filipino ownership or interest is less than seventy-five percent (75%) may be eligible where the structures to be built require the application of techniques and/or technologies which are not adequately possessed by Filipinos and that Filipino ownership or interest shall not be less than twenty-five percent (25%): *Provided, finally,* that when the design services in which the joint venture wishes to engage involve the practice of professions regulated by law, all those who will actually perform the

services shall be Filipino citizens and registered professionals authorized by the appropriate regulatory body to practice those professions and allied professions and where foreign designers are required, the foreign designer must be authorized by the appropriate Philippine Government professional regulatory body to engage in the practice of those professions and allied professions.

10.SUBMISSION AND RECEIPT OF BIDS

10.1. In the submission of bids, the first envelope (Technical Proposal) shall contain all the required documents for infrastructure projects under Section 25.2(b) of the IRR of R.A 9184 and the following additional documents:

- i. Preliminary Conceptual Design Plans in accordance with the degree of details specified by the procuring entity;
- ii. Design and construction methods;
- iii. List of design and construction personnel, to be assigned to the contract to be bid, with their complete qualification and experience data; and
- iv. Value engineering analysis of design and construction method.

10.2. The second envelope (Financial Proposal) shall contain all the required documents for infrastructure projects under Section 25.3⁸ of the IRR of R.A 9184 and the following additional documents:

- i. Lump sum bid prices, which shall include the detailed engineering cost, in the prescribed Bid Form;
- ii. Detailed estimates including a summary sheet indicating the unit prices of construction materials, labor rates and equipment rentals used in coming up with the bid; and
- iii. Cash flow by the quarter and payments schedule.

11.BID EVALUATION

For the detailed evaluation of the design and build proposals a two-step procedure shall be adopted by the BAC, which may be undertaken with the assistance of the DBC.

11.1. First-Step Procedure:

- i. The first step of the evaluation shall involve the review of the preliminary conceptual designs and track record submitted by the contractor as indicated in the Bidding Documents using a non-discretionary "pass/fail" criteria that involve compliance with the following requirements:

⁸ *Ibid.*

- a. Adherence of preliminary design plans to the required performance specifications and parameters and degree of details;
 - b. Concept of approach and methodology for detailed engineering, design and construction with emphasis on the clarity, feasibility, innovativeness and comprehensiveness of the plan approach, and the quality of interpretation of project problems, risks, and suggested solutions;
 - c. Quality of personnel to be assigned to the project which covers suitability of key staff to perform the duties of the particular assignments and general qualifications and competence including education and training of the key staff;
- ii. For complex or unique undertakings, such as those involving highly specialized or advanced engineering technology, eligible bidders may be required, at the option of the agency concerned, to make an oral presentation within fifteen (15) calendar days after the deadline for submission of technical proposals.

11.2. Second-Step Procedure:

Only those bids that passed the above criteria shall be subjected to the second step of evaluation.

The BAC shall open the financial proposal of each "passed" bidder and shall evaluate it using non-discretionary criteria - including arithmetical corrections for computational errors - as stated in the Bidding Documents, and thus determine the correct total calculated bid prices. The BAC shall automatically disqualify any total calculated bid price which exceeds the ABC. The total calculated bid prices (not exceeding the ABC) shall be ranked, in ascending order, from lowest to highest. The bid with the lowest total calculated bid price shall be identified as the Lowest Calculated Bid (LCB).

12. POST-QUALIFICATION and AWARD OF THE CONTRACT

- 12.1. The LCB shall be subject to post-qualification in accordance with Section 34, Rule X of this IRR to determine its responsiveness to the eligibility and bid requirements. If after post-qualification the Lowest Calculated Bid is determined to be post-qualified it shall be considered the Lowest Calculated and Responsive Bid (LCRB) and the contract shall be awarded to the bidder. In case of post-disqualification of the LCB, the procedure under Section 34 shall also be followed.
- 12.2. The Head of the Procuring Entity shall approve or disapprove the recommendations of the BAC within a period not exceeding fifteen (15) calendar days from the determination and declaration by the BAC of the LCRB.
- 12.3. The Head of the Procuring Entity concerned shall award the contract to the said bidder pursuant to the provisions of Section 37, Rule XI of this IRR.

13.CONTRACT IMPLEMENTATION

As a rule, contract implementation guidelines for the procurement of infrastructure projects shall comply with Annex "E" of this IRR. The following provisions shall supplement these procedures:

- 13.1. No works shall commence unless the contractor has submitted the required documentary requirements and the procuring entity has given written approval. Work execution shall be in accordance with reviewed and approved documents.
- 13.2.  - ii. Periods for review of specific outputs and any other submissions and approvals;
 - iii. Sequence of timing for inspections and tests as specified in the contract documents;
 - iv. General description of the design and construction methods to be adopted;
 - v. Number and names of personnel to be assigned for each stage of the work;
 - vi. List of equipment required on site for each major stage of the work; and

- 13.4. Any errors, omissions, inconsistencies, inadequacies or failure submitted by the contractor that do not comply with the requirements shall be rectified, resubmitted and reviewed at the contractor's cost. If the Contractor wishes to modify any design or document which has been previously submitted, reviewed and approved, the contractor shall notify the procuring entity within a reasonable period of time and shall shoulder the cost of such changes.
- 13.5. As a rule, changes in design and construction requirements shall be limited only to those that have not been anticipated in the contract documents prior to contract signing and approval. The following guidelines shall govern approval for change or variation orders:

- i. Change Orders resulting from design errors, omissions or non-conformance with the performance specifications and parameters and the contract documents by the contractor shall be implemented by the contractor at no additional cost to the procuring entity.
 - ii. Provided that the contractor suffers delay and/or incurs costs due to changes or errors in the procuring entity's performance specifications and parameters, he shall be entitled to either one of the following:
 - a. an extension of time for any such delays under Section 10 of Annex "E"; or
 - b. payment for such costs as specified in the contract documents, provided, that the cumulative amount of the variation order does not exceed ten percent (10%) of the original contract price.
- 13.6. The contract documents shall include the manner and schedule of payment specifying the estimated contract amount and installments in which the contract price will be paid.

ANNEX "H"

CONSOLIDATED GUIDELINES FOR THE ALTERNATIVE METHODS OF PROCUREMENT

I. POLICY STATEMENT

As a general rule, all procurement shall be through Competitive Bidding. However, whenever justified by the conditions provided in Republic Act No. (R.A.) 9184 and its revised Implementing Rules and Regulations (IRR), the Procuring Entity may, in order to promote economy and efficiency, resort to any of the alternative methods of procurement provided in Rule XVI of the IRR of R.A. 9184.

The Alternative Methods of Procurement shall be resorted to only in the highly exceptional cases provided for in this Guidelines and subject to the prior approval of the Head of the Procuring Entity (HOPE) upon recommendation of the Bids and Awards Committee (BAC). In all instances, the Procuring Entity shall ensure that the most advantageous price for the Government is obtained.

II. PURPOSE

This Guidelines is formulated by the Government Procurement Policy Board (GPPB) to provide a single source of information for Alternative Methods of Procurement commonly resorted to by procuring entities; and to prescribe the terms, conditions, rules and procedures for covered Alternative Methods of Procurement for Goods, Infrastructure Projects, and Consulting Services.

III. SCOPE

This Guidelines shall apply to the national government, its branches, constitutional offices, departments, bureaus, offices and agencies, including state universities and colleges, government-owned and/or -controlled corporations, government financial institutions, and local government units.

Excluded from this Guidelines are the following:

A. Infrastructure projects undertaken through the Armed Forces of the Philippines Corps of Engineers (AFPCOE), for purposes of Sections 53.2 (Emergency Cases) and 53.5 (Agency-to-Agency) of the IRR of R.A. 9184, which shall continue to be governed by the Guidelines on the Implementation of Infrastructure Projects Undertaken by the AFP Corps of Engineers under GPPB Resolution No. 09-2005.

IV. GENERAL GUIDELINES

A. Annual Procurement Plan (APP). The method of procurement, *e.g.*, competitive bidding or any of the alternative methods of procurement, to be utilized by the Procuring Entity shall be indicated in the APP to be approved by the HOPE. If the original mode of procurement in the APP cannot be ultimately pursued, the BAC assisted by its Secretariat, the Technical Working Group, and by the appropriate End-User or relevant office, as the case may be, shall justify and recommend through a BAC Resolution such change in the mode of procurement to be approved by the HOPE. The changes must be reflected in the APP and submitted to the GPPB in accordance with Section 7.4 of the IRR of R.A. 9184.

B. Prohibition on Splitting of Government Contracts⁹. Splitting of Government Contracts, which means the division or breaking up of government contracts into smaller quantities and amounts, or dividing contract implementation into artificial phases or sub-contracts for the purpose of evading or circumventing the requirements of R.A. 9184 and its IRR, particularly the necessity of competitive bidding and the requirements for the alternative methods of procurement, is prohibited.

For infrastructure projects to be implemented by phases, the Procuring Entity shall ensure that there is a clear delineation of work for each phase, which must be usable and structurally sound. It shall also ensure the conduct of the detailed engineering activities for each phase as provided for in Annex "A" of the IRR of R.A. 9184.

C. Unnecessary, Excessive, Extravagant and Unconscionable Expenditures. The Procuring Entity shall ensure that the objectives and purpose of the contract do not constitute an unnecessary, excessive, extravagant, or unconscionable expenditure.

D. Confidentiality of Bidding Documents. The procurement documents are strictly confidential and shall not be divulged or released to any person prior to the advertisement or posting of the procurement opportunity, except to those officially authorized in the handling of these documents.

However, in procurements involving and affecting national security, the disclosure of procurement documents shall be dependent upon the HOPE having due regard to the nature, classification, sensitivity and confidentiality of the relevant documents *vis-à-vis* the purpose and reason for the request.

E. Advertisement and Posting of Procurement Opportunity¹⁰. For alternative methods of procurement, the Procuring Entity may dispense with the advertisement in the newspaper and posting requirement as prescribed in Section 21.2.1 of the IRR of R.A. 9184.

For the following alternative methods, however, the BAC, through its Secretariat, shall post the procurement opportunity [*e.g.*, Request for Quotation (RFQ) or Request for Proposal (RFP)] in the Philippine Government Electronic Procurement System (PhilGEPS) website, the website of the Procuring Entity concerned, if available, and at any conspicuous place reserved for this purpose in the premises of the Procuring Entity for a period of at least three (3) calendar days:

V. SPECIFIC GUIDELINES

A. DIRECT CONTRACTING¹⁵

1. Definition. Direct Contracting or single source procurement is a method of procurement of goods that does not require elaborate Bidding Documents. The supplier is simply asked to submit a price quotation or a pro-forma invoice together with the conditions of sale. The offer may be accepted immediately or after some negotiations. Direct Contracting may be resorted to under any of the following conditions:

- a) Procurement of goods of proprietary nature which can be obtained only from the proprietary source, *i.e.*, when patents, trade secrets, and copyrights prohibit others from manufacturing the same item;
- b) When the procurement of critical components from a specific supplier is a condition precedent to hold a contractor to guarantee its project performance, in accordance with the provisions of its contract; or
- c) Those sold by an exclusive dealer or manufacturer which does not have sub-dealers selling at lower prices and for which no suitable substitute can be obtained at more advantageous terms to the government.

To justify the need to procure through the Direct Contracting method, the End-User should conduct a survey of the industry and determine the supply source. In all cases where Direct Contracting is contemplated, the survey must be conducted prior to the commencement of the procurement process. Moreover, the End-User must justify the necessity for an item that may only be procured through Direct Contracting, and it must be able to prove that there is no suitable substitute in the market that can be obtained at more advantageous terms.

2. Procedure

- a) The BAC shall prepare the RFQ or pro-forma invoice together with the terms and conditions of sale, and shall send the same to the identified direct supplier.
- b) Simplified negotiations on the terms and conditions of the contract may be conducted by the BAC to ensure that the supplier is technically, legally and financially capable to deliver the goods at the most advantageous price and contract for the Government.
- c) The BAC shall recommend to the HOPE the award of contract in favor of the supplier. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

B. REPEAT ORDER¹⁶

¹⁵ Section 50, R.A. 9184 and its IRR.

¹⁶ Section 51, R.A. 9184 and its IRR.

1. Definition. *Repeat Order* is a method of procurement of goods from the previous winning bidder, whenever there is a need to replenish goods subject to the following conditions:

- a) The goods were procured under a contract previously awarded through Competitive Bidding;
- b) Unit prices must be the same as or lower than those in the original contract, provided that such prices are still the most advantageous to the government after price verification;
- c) The repeat order will not result in splitting of contracts, requisitions, or purchase orders, as provided for in Article IV(B) of this Guidelines;
- d) Except in cases duly approved by the GPPB, repeat orders shall be availed of only within six (6) months from the date of the NTP arising from the original contract, provided that there has been a partial delivery, inspection and acceptance of the goods within the same period;
- e) Repeat orders shall not exceed twenty-five percent (25%) of the quantity of each item in the original contract. In order not to exceed the 25% threshold, the goods under the original contract must be:
 - i. Quantifiable;
 - ii. Divisible; and
 - iii. Consisting of at least four (4) units per item.

2. Procedure

- a) Upon determination of the need to replenish the goods earlier procured through competitive bidding, the End-User unit shall prepare the necessary Purchase Request for the procurement of additional goods, after a careful study and confirmation of the prevailing market price of the goods to be re-ordered and comparing this with the price of the goods in the original contract, accompanied by the appropriate justification why the re-ordering is being pursued.
- b) When all the conditions are present, the BAC shall recommend to the HOPE the award of contract through Repeat Order. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

C. SHOPPING¹⁷

1. Definition. *Shopping* is a method of procurement of goods whereby the Procuring Entity simply requests for the submission of price quotations for readily available off-the-shelf goods or ordinary/regular equipment to be procured directly from suppliers of known qualifications. This method of procurement shall be employed in any of the following cases:

- a) When there is an unforeseen contingency requiring immediate purchase, the amount shall not exceed the following:

Posting of the RFQ may be dispensed with.
- iv. The BAC shall immediately validate the technical, legal and financial capability of the supplier to supply and deliver the goods by requiring the submission of relevant documents or through other verifiable means to prove the capability of the Supplier.
- v. Upon confirmation and ascertainment of such capability, the BAC shall recommend to the HOPE the award of contract in favor of the supplier with the Single or Lowest Calculated and Responsive Quotation. In case of approval, the HOPE shall immediately enter into a contract with the said supplier.

b) Procedures

- i. After conduct of the mandatory review of the terms, conditions, specifications, and cost estimates, as prescribed in Section 35 of the IRR, the BAC, based on its findings, as assisted by its Secretariat, TWG and End-User unit may revise and agree on the technical, legal and financial eligibility requirements and technical specifications or terms of reference, and if necessary, adjust the ABC, subject to the required approvals. However, the ABC cannot be increased by more than twenty percent (20%) of the ABC for the last failed bidding.
- ii. The BAC shall invite at least three (3) suppliers, contractors or consultants, including those disqualified in previous biddings for the project, for negotiations to ensure effective competition. This, notwithstanding, those who responded through any of the required postings shall be allowed to participate. Even if only one (1) bidder

¹⁸ Section 53, R.A. 9184 and its IRR.

¹⁹ Section 53.1, IRR of R.A. 9184.

should respond to such invitation or posting, the BAC shall proceed with the negotiation subject to the rules prescribed hereunder.

- iii. Any requirements, guidelines, documents, clarifications, or other information relative to the negotiations that are communicated by the BAC to a supplier, contractor, or consultant shall be communicated on an equal basis to all other suppliers, contractors, or consultants engaging in negotiations with the BAC relative to the procurement. The prospective bidders shall be given equal time and opportunity to negotiate and discuss the technical and financial requirements of the project to be able to submit a responsive quotation or proposal.
- iv. Following completion of the negotiations, the BAC shall request all suppliers, contractors, or consultants in the proceedings to submit, on a specified date, a best offer based on the final technical and financial requirements. Pursuant to Section IV(G) of this Guidelines, the Procuring Entity shall require the submission of a Certificate of PhilGEPS Registration in accordance with Section 8.5.2 of the IRR of RA 9184.
- v. The BAC shall recommend award of contract to the HOPE in favor of the supplier, contractor or consultant determined to have the Single or Lowest Calculated and Responsive Quotation (for goods and infrastructure projects) or Single or Highest Rated and Responsive Proposal (for consulting services). Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

2. EMERGENCY CASES²⁰.

a) Instances when Negotiated Procurement under Emergency Cases may be resorted to:

- i. In case of imminent danger to life or property during a state of calamity, or
- ii. When time is of the essence arising from natural or man-made calamities or
- iii. Other causes where immediate action is necessary:
 - a) to prevent damage to or loss of life or property, or
 - b) to restore vital public services, infrastructure facilities and other public utilities.

In all instances of Negotiated Procurement under this Section, the HOPE shall confirm in writing the existence and veracity of the ground or grounds relied upon before approving the ensuing contract.

Considering that the underlying reason to support a Negotiated Procurement through the Emergency modality relates to "time element" as when there is – a) imminent danger to life or property; or, b) when time is of the essence; or, c) immediate action is necessary, the Procuring Entity, through the HOPE, BAC,

²⁰ Section 53.2, IRR of R.A. 9184.

its Secretariat and End-User unit, should consider appropriate timing or the proximity of time between the actual procurement activity to be conducted and the emergency sought to be addressed, such that when the reason or cause for the emergency has already been abated, adoption of competitive bidding as the primary mode of procurement shall be considered.

When the ground is based on imminent danger to life during a state of calamity, there must be a declaration by a competent authority of a state of calamity pursuant to existing laws, rules and regulations before any procurement activity may be undertaken.²¹

b) Procedure

- i. The End-User unit or the duly authorized official or personnel shall submit a request to the BAC or the HOPE, as the case may be, accompanied by appropriate supporting documents identifying the emergency sought to be addressed, and the necessary goods, civil works or consulting services (*e.g.*, Technical Specifications, Scope of Work or Terms of Reference) that have to be procured to address the emergency.
- ii. Upon preparation of the appropriate procurement documents, the BAC may directly negotiate with a supplier, contractor or consultant with technical, legal and financial capability to deliver the goods, execute the works and perform the services to address the emergency. Upon confirmation and ascertainment of such capability to address the emergency, the HOPE, upon recommendation of the BAC, shall immediately award the contract to the Supplier, Contractor or Consultant.

3. TAKE-OVER OF CONTRACTS²²

a) Instances when Take-over of contracts may be resorted to:

- i. The contract, previously awarded through Competitive Bidding, has been rescinded or terminated for causes provided for in the contract and existing laws; and
- ii. Where immediate action is necessary:
 - a) to prevent damage to or loss of life or property, or
 - b) to restore vital public services, infrastructure facilities and other public utilities.

b) Procedure

- i. The BAC shall post-qualify and negotiate with the second lowest calculated/highest rated bidder for the project under consideration at the said bidder's own original bid price, applicable to the remaining works to be done. Authority to negotiate contracts for projects under the foregoing

²¹ Section 16, R.A. 10121.

²² Section 53.3, IRR of R.A. 9184.

exceptional cases shall be subject to prior approval by the HOPE concerned, within their respective limits of approving authority.

- ii. If negotiation fails, then the BAC shall post-qualify and negotiate with the next lowest calculated/highest rated bidder at the said bidder's own original bid price.
- iii. If the negotiation fails another time, the process is repeated until all the bidders from the previous bidding have been considered.
- iv. If the negotiation fails and there is no bidder left from the previous bidding or if the original awardee is a Single Calculated Responsive Bidder/Single Rated Responsive Bidder, the BAC may either invite at least three (3) suppliers/contractors/consultants to submit their bids, or resort to any other appropriate alternative method of procurement.
- v. In case of successful post-qualification and negotiation, the BAC shall recommend to the HOPE the award of contract with the said supplier, contractor or consultant. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

4. ADJACENT OR CONTIGUOUS²³

a) Definition. Where the subject contract is adjacent or contiguous to an on-going Infrastructure Project or Consulting Service where the consultants have unique experience and expertise to deliver the required service, subject to the following conditions:

- i. Original contract is the result of a Competitive Bidding;
- ii. Subject contract to be negotiated has similar or related scopes of work;
- iii. It is within the contracting capacity of the contractor/consultant considering the legal, technical (*e.g.*, PCAB license, SLCC) and financial (*e.g.*, NFCC for the contiguous project) requirements for eligibility;
- iv. In determining the SLCC, NFCC and PCAB license, the sum of the value of the remaining works for the existing contract and the ABC of the contiguous or adjacent work shall be considered;
- v. The contractor/consultant uses the same prices or lower unit prices as in the original contract less mobilization cost;
- vi. The ABC of the contiguous or adjacent work involved does not exceed the contract amount of the ongoing project;
- vii. The contractor/consultant has no negative slippage/delay in the original contract during the time of negotiation; and
- viii. Negotiations for the procurement are commenced before the expiry of the original contract.

²³ Section 53.4, IRR of R.A. 9184.

In infrastructure projects, the phrase “adjacent or contiguous” refers to projects that are in actual physical contact with each other or in the immediate vicinity such that the required equipment and other resources can easily be mobilized; while in consulting services, it pertains to the linkage or relationship of the subject matters, outputs or deliverables required.

If there is a necessity to introduce new items which are related to the scope of work of the original contract, the Procuring Entity shall ensure that the unit prices of the new items are equal to or lower than the prevailing market prices.

b) Procedure

- i. The BAC shall negotiate with the contractor or consultant for the ongoing infrastructure project or consulting services (*e.g.*, scope of work or terms of reference, unit price and other terms and conditions of the contract).
- ii. In case of successful negotiation, the BAC shall recommend to the HOPE the award of contract in favor of the contractor or consultant. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

5. AGENCY-TO-AGENCY²⁴

a) Definition. Procurement from another agency of the government (i.e., Servicing Agency) that has the mandate to deliver goods or services or to undertake infrastructure projects or consultancy services as required by the Procuring Entity.

Agency-to-Agency Agreements shall be governed by the Guidelines, unless otherwise provided by a special law, such as in the case of Procurement of Printing Services from Recognized Government Printers and Procurement of Common-use Supplies and Equipment from the DBM-PS.

All procurement to be undertaken by the Servicing Agency, including those required for the project, shall continue to be governed by the provisions of R.A. 9184.

All projects undertaken through Agency-to-Agency Agreements shall be subject to pertinent budgeting, accounting, and auditing rules and regulations.

b) Conditions. It is the general policy of government to purchase its requirements from the private sector. However, it acknowledges that, in some exceptional cases, procurement from another agency of the government is more efficient and economical for the government, subject to the following conditions:

- i. The Procuring Entity shall justify that entering into an Agency-to-Agency Agreement with the Servicing Agency is more efficient and economical to the government;

²⁴ Section 53.5, IRR of R.A. 9184.

- ii. Servicing Agency has the mandate to deliver the goods and services required to be procured or to undertake the infrastructure project or consultancy required by the Procuring Agency;
- iii. Servicing Agency has the absorptive capacity to undertake the project;
- iv. Servicing Agency owns or has access to the necessary tools and equipment required for the project;
- v. Sub-contracting is not allowed. However, the servicing agency may implement the infrastructure project in-house, by job-order, or through the *pakyaw* contracting system; and
- vi. For procurement of infrastructure projects, the Servicing Agency must have a track record of having completed, or supervised a project, by administration or by contract, similar to and with a cost of at least fifty percent (50%) of the project at hand.

c) Procedure

- i. The End-User unit shall justify to the BAC that the resort to Agency-to-Agency is more efficient and economical to the government.
- ii. It shall likewise secure a certificate from the relevant officer of the Servicing Agency that the latter complies with all the foregoing conditions.
- iii. Based on the assessment and recommendation of the End-User unit, the BAC shall issue a Resolution recommending the use of Agency-to-Agency Agreement to the HOPE.
- iv. In case of approval, the HOPE shall enter into a Memorandum of Agreement (MOA) with the Servicing Agency.

6. SCIENTIFIC, SCHOLARLY OR ARTISTIC WORK, EXCLUSIVE TECHNOLOGY AND MEDIA SERVICES²⁵.

a) Definition. Where Goods, Infrastructure Projects and Consulting Services can be contracted to a particular supplier, contractor, or consultant as determined by the HOPE, for any of the following reasons:

- i. The requirement is for:
 - a) Work of art; commissioned work or services of an artist for specific artistic skills (*e.g.*, singer, performer, poet, writer, painter, sculptor, etc.)
 - b) Scientific, academic, scholarly work or research, or legal services;
 - c) Highly-specialized life-saving medical equipment, as certified by the Department of Health;

²⁵ Section 53.6, IRR of R.A. 9184.

- d) Scientific, technical, economic, business, trade or legal journal, magazine, paper, subscription, or other exclusive statistical publications and references; or
- e) Media documentation, advertisement, or announcement through television, radio, newspaper, internet, and other communication media.

Due to the nature of the information to be disseminated, alongside principles of transparency, efficiency and economy, award to more than one (1) supplier may be made by the Procuring Entity.

- ii. The construction or installation of an infrastructure facility where the material, equipment, or technology under a proprietary right can only be obtained from the same contractor.

To justify the need to procure through this negotiated modality, the End-User shall conduct a market study and determine the probable sources. This study should confirm that the supplier, contractor or consultant could undertake the project at more advantageous terms. In all cases, the market study must be conducted prior to the commencement of the procurement process.

b) Procedure

- i. The BAC shall undertake the negotiation with a technically, legally and financially capable supplier, contractor or consultant based on the Technical Specifications, Scope of Work or Terms of Reference prepared by the End-User.
- ii. Upon successful negotiation, the BAC shall recommend the award of contract to the HOPE in accordance with Section (IV)(L) of this Guidelines.

7. HIGHLY TECHNICAL CONSULTANTS²⁶

a) Definition. Procurement of consultancy contract involving an individual consultant, subject to the following conditions:

- i. The individual consultant will be hired to do work that is either:
 - a) Highly technical or proprietary; or
 - b) Primarily confidential or policy determining, where trust and confidence are the primary consideration.
- ii. The term of the individual consultant shall, at the most, be on a six (6) month basis, renewable at the option of the appointing HOPE, but in no case shall exceed the term of the latter.

b) Procedure

²⁶ Section 53.7, IRR of R.A. 9184.

- i. The End-User Unit shall justify to the BAC the engagement of the individual in accordance with the conditions set forth in this Section.
- ii. The BAC shall undertake the negotiation with the individual consultant based on the Terms of Reference prepared by the End-User. Considering the nature of the consultancy work, the negotiations need not be elaborate, it is enough that the BAC has validated that the individual is legally, technically and financially capable to undertake and fulfill the consultancy work based on the Terms of Reference.
- iii. The BAC shall recommend to the HOPE the award of contract to the individual consultant. Award of contract shall be made in accordance with Section (IV)(L) of this Guidelines.

8. SMALL VALUE PROCUREMENT (SVP)²⁷

a) Definition. Procurement of (a) goods not covered by Shopping under Section 52 of the IRR of RA 9184, (b) infrastructure projects, and (c) consulting services, where the amount involved does not exceed the following threshold:

- i. For NGAs, GOCCs, GFIs, SUCs, and Autonomous Regional Government, One Million Pesos (₱ 1,000,000)

In the case of *barangays*, Fifty Thousand Pesos (₱ 50,000).

b) Procedure

- i. The End-User shall submit a request for SVP to the BAC, which indicates the technical specifications, scope of work, terms of reference, ABC and other terms and conditions.
- ii. The BAC shall prepare and send the RFQs/RFPs to at least three (3) suppliers, contractors or consultants of known qualifications. This, notwithstanding, those who responded through any of the required postings shall be allowed to participate. Receipt of at least one (1) quotation is sufficient to proceed with the evaluation thereof.
- iii. Except for those with ABCs equal to Fifty Thousand Pesos (₱ 50,000.00) and below, RFQs shall be posted for a period of three (3) calendar days in

²⁷ Section 53.9, IRR of R.A. 9184.

- vi. The BAC shall recommend to the HOPE the award of contract in favor of the supplier or contractor with the Single or Lowest Calculated and Responsive Quotation (for goods or infrastructure projects), or consultant with the Single or Highest Rated and Responsive Proposal (for consulting services). In case of approval, the HOPE shall immediately enter into contract with the said supplier, contractor or consultant.

9. LEASE OF REAL PROPERTY AND VENUE²⁸.

a) Definition. Procurement covering lease of real property and venue for official use, where:

- i. **Real Property** refers to land and buildings (office spaces or units) and constructions of all kinds adhered to the soil.
- ii. **Venue** refers to training centers, convention halls, hotels, and similar establishments catering to trainings, seminars, conferences, conventions, symposia and similar gatherings requiring the official participation of government officials and employees. This may include meals and accommodation depending on the requirements of the Procuring Entity.
- iii. **Lessee** refers to any government agency temporarily occupying a real property on the basis of a contract executed with the private individual, partnership, cooperative, association, or corporation having absolute ownership over such real property.
- iv. **Lessor** refers to any government agency or private individual, partnership, cooperative, association, or corporation having absolute ownership over the real property or venue to be leased.

b) Policy Considerations

- i. Publicly-owned vis-a-vis privately-owned real property and venue*

It is preferred that government agencies lease publicly-owned real property or venue from other government agencies.

²⁸ Section 53.10, IRR of R.A. 9184.

If there is an available publicly-owned real property or venue that complies with the requirements of the Procuring Entity, it may enter into a contract of lease with the government-agency owner.

In the event that the Procuring Entity would resort to privately-owned real property or venue, the End-User unit shall justify that the same is more efficient and economical to the government.

ii. Location

The location of the real property or venue to be leased should have been meticulously selected by the Procuring Entity after taking into consideration, among others, the need for prudence and economy in government service and the suitability of the area in relation to the mandate of the office, and its accessibility to its clients. In the lease of venue, other factors such as the nature of the event or the level of security in the proposed location may also be taken into account.

iii. ABC and rental rates

The ABC shall be set using the mid point of the range obtained from the results of the market analysis on the prevailing lease rates for real property or venue within the vicinity of the selected location complying with the criteria and technical specifications of the End-User Unit. In no case shall the rental rates, including additional expenses, such as association dues in the case of lease of real property, exceed the ABC.

As a general rule, rental rates are considered reasonable when they represent or approximate the value of what the Lessee gets in terms of accommodation, facility, amenities, and convenience from the leased real property or venue, and the Lessor gets an equitable return of capital or investment.

Rental rates should also be within the prevailing market rates for lease of real property or venue with the same or similar condition or classification and located within the vicinity. Rental rate refers to the amount paid by the Lessee for the use and/or occupancy of the privately-owned real property to the Lessor, where payment is usually made on a monthly basis.

iv. Technical Specifications

Technical Specification shall be prepared taking into consideration the rating factors under Appendix B of this Guidelines.

c) Procedures for Lease of Privately-Owned Real Property and Venue

i. Real Property

- a) The BAC shall invite at least three (3) prospective Lessors to submit sealed price quotations.

On a specified date, submitted price quotations shall be opened to determine the Lowest Calculated Quotation. Receipt of at least one (1) quotation is sufficient to proceed with the evaluation thereof.

- b) The real property being offered by the Lessor with the Single or Lowest Calculated Quotation shall be rated in accordance with the technical specifications and the reasonableness of its price quotation shall be determined in accordance with the methodology prescribed in Appendix B.
- c) Upon determination of the responsiveness and reasonableness of the quotation, the BAC shall recommend to the HOPE the award of contract in favor of the Lessor with the Single or Lowest Calculated and Responsive Quotation. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

ii. Venue

- a) The BAC shall send the RFQ to at least three (3) venues within the vicinity of the selected location. Receipt of at least one (1) quotation is sufficient to proceed with the evaluation thereof.
- b) The venue being offered by the Lessor with the Lowest Calculated Quotation shall then be rated in accordance with the technical specifications prepared pursuant to Appendix B of this Guidelines. Compliance rating with technical specifications may be conducted through ocular inspection, interviews, or other forms of due diligence.
- c) Upon determination of the responsiveness of the quotation, the BAC shall recommend to the HOPE the award of contract in favor of the Lessor with the Single or Lowest Calculated and Responsive Quotation. Award of contract shall be made in accordance with Section IV(L) of this Guidelines.

FACTOR VALUE			

Note: Weight of each rating factor may be changed as long as total weight per classification is equivalent to 100. Figures in parenthesis are samples. Procuring Entity must determine passing rate before inviting bids from Lessors. A bid is determined to be responsive if it is equal to or higher than the passing rate.

B. DETERMINATION OF REASONABLENESS OF RENTAL RATES

1. The reasonableness of rental rates may be determined using any of the following methods.

1.1. Computation based on Observed Depreciation

This method uses the following formula and a depreciation rate determined after meticulous ocular inspection of the actual condition of the real property:

Reproduction Cost	=	Estimated Unit Construction Cost × (1 – Depreciation Rate)
Formula Rate	=	Reproduction Cost × Monthly Capitalization Rate
Rental Rate	=	Formula Rate × Factor Value
Monthly Rental	=	Rentable Area × Rental Rate

- 1.1.1. The following weights may be used in arriving at the observed depreciation rate:

Status	Depreciation (%)
Good	20
Fair	40
Poor	60
Very poor	80

- 1.1.2. Reproduction Cost refers to the estimated total cost of replacing the real property with the same utility.
- 1.1.3. Capitalization Rate refers to the interest rate on the cost or value of the property.

1.1.4. Rentable Area refers to the total area of the real property in square meters being occupied or to be occupied by the Lessee less the common area like lobby, stairway, elevator hall, common comfort room, machine room for air conditioner, and other areas of common use by the public or upper floor occupants.

1.1.5. Factor Value refers to the rating factor where locations and site conditions, neighborhood data and real property structural condition, functionality, facilities and other requirements, including free services and facilities offered by the Lessor are considered. The rating factors and its corresponding weights are provided in Table A of this Appendix.

1.2. *Computation based on Straight Line Depreciation*

This method uses the following formula:

Age of Real Property	=	Current Year – Year of Construction
Depreciation Rate	=	Please See Table of Structural Depreciation
Reproduction Cost	=	Estimated Unit Construction Cost × (1 – Depreciation Rate)
Formula Rate	=	Reproduction Cost × Monthly Capitalization Rate
Rental Rate	=	Formula Rate × Factor Value
Monthly Rental	=	Rentable Area × Rental Rate

1.2.1. Depreciation rate shall be determined using the following Table of Structural Depreciation provided by the DPWH:

AGE	ESTIMATED LIFE OF REAL PROPERTY			
	WOODEN FRAME (40 years)	SEMI-CONCRETE (60 years)	REINFORCED CONCRETE (75 years)	STRUCTURAL REINFORCED (100 years)
	Percentage (%) of estimated life			
1	3	2.5	2	1.5
2	6	4.5	3.8	2.8
3	8.9	6.9	5.6	4.2
4	11.7	9	7.4	5.5

1.2.2. Estimated Unit Construction Cost refers to the estimated prevailing cost of construction per square meter of the real property being appraised. The respective Estimated Unit Construction Cost of types of real property for each region may be obtained from the Bureau of Maintenance of the DPWH.

1.2.3. Reproduction Cost, Capitalization Rate, Rentable Area and Factor Value shall have the same meaning as those referred Items 1.1.2 to 1.1.5.

1.3. *Comparative Market Price Analysis*

This method is based on the conduct of comparative market analysis on the prevailing lease rates for real properties within the vicinity of the selected location complying with the criteria and technical specifications of the Procuring Entity. In the lease of vacant lot or other land spaces, the Procuring Entity shall likewise consider the zonal valuation issued by the city or municipality having jurisdiction over the property.

2. If the price quotation of the prospective Lessor does not exceed the computed monthly rental or is within the prevailing market rates, the rental rate offered may be regarded as reasonable, and its quotation may then be considered for award.

3. Sample Computations for Observed Depreciation and Straight Line Depreciation:

A 5-storey office building made of reinforced concrete structure with mechanical equipment, i.e., elevator, air conditioning system, etc.

Date of Construction	1987
Estimated Unit Construction Cost	P25,000/sq.m
Depreciation	20% (Good condition)
Capitalization Rate	20% (Variable based on bank rate)
Factor Value	90% (Based on rating)

COMPUTATION BASED ON OBSERVED DEPRECIATION

Reproduction Cost	= Estimated Unit Construction Cost \times (1 – Depreciation Rate)
	= P25,000/sq.m. (1 – 0.20)
	= P20,000/sq.m.
Formula Rate	= Reproduction Cost \times Monthly Capitalization Rate
	= 20,000 (0.20/12) = 20,000 (0.0167)
	= P334/sq.m./mo.
Rental Rate	= Formula Rate \times Factor Value
	P334 (0.90)
	300.60/sq.m./mo. <i>say</i> 300/sq.m.
Rentable Area	= 200.00 sq.m.
Monthly Rental	= Rentable Area \times Rental Rate
	= 200/sq.m. \times P300/sq.m./mo.
	= P60,000.00/mo.

COMPUTATION BASED ON STRAIGHT LINE DEPRECIATION

Age of Real Property	= Current Year – Year of Construction
	= 2007 – 1987
	= 20 years
Depreciation Rate	= See Appendix B for the Table of Structural Depreciation
Reproduction Cost	= Estimated Unit Construction Cost \times (1 – Depreciation Rate)
	= P25,000/sq.m. (1 – 0.248)
	= P18,800/sq.m.
Formula Rate	= Reproduction Cost \times Monthly Capitalization Rate
	= P18,800 (0.20/12) = 18,800 (0.0167)
	= P313.96/sq.m./mo.
Rental Rate	= Formula Rate \times Factor Value
	= P313.96 (0.90)
	= P282.56/sq.m./mo. <i>say</i> P285.00/sq.m.
Rentable Area	= 200.00 sq.m.
Monthly Rental	= Rentable Area \times Rental Rate
	= 200 sq.m. \times P285.00/sq.m.
	= P57,000.00/mo.

10. **Verified Report** refers to the report submitted by the Implementing Unit to the Head of the Procuring Entity setting forth its findings as to the existence of grounds or causes for termination and explicitly stating its recommendation for the issuance of a Notice to Terminate.

If the Supplier suffers loss in its initial performance of the terminated contract, such as purchase of raw materials for goods specially manufactured for the Procuring Entity which cannot be sold in open market, it shall be allowed to recover partially from the contract, on a *quantum meruit* basis. Before recovery may be made, the fact of loss must be established under oath by the Supplier to the satisfaction of the Procuring Entity before recovery may be made.

9. Notice by Contractor/Consultant. The Contractor/Consultant must serve a written notice to the Procuring Entity of its intention to terminate the contract at least thirty (30) calendar days before its intended termination.
